

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. OFFICIAL LIST.

Chief Inspector.

James Campbell, Pittsburgh, Allegheny county, Pa.

Chief Clerk.

W. H. Heckendorn, Hamilton, Jefferson county, Pa.

Stenographer.

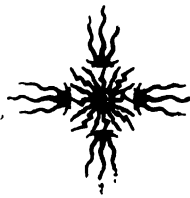

Jennie M. Hammett, New Castle, Lawrence county, Pa.

Messenger.

James C. Masters, Harrisburg, Pa.

Deputy Inspectors.

William H. Day, 1014 York street, Philadelphia, Pa.
John R. Emsley, 124 Apsley street, Philadelphia, Pa.
W. S. Godfrey, 2352 East Huntingdon street, Philadelphia, Pa.
Miss Mary Glenn, Holmesburg, Philadelphia, Pa.
William J. Hughes, 2125 South Ninth street, Philadelphia, Pa.
James Knight, Jr., Nicetown and Rising Sun Lane, Philadelphia, Pa.
Mrs. M. E. R. Keller, 1009 St. Bernurd Place, Philadelphia.
Thomas J. Lappin, 1431 Morris street, Philadelphia.
M. N. Baker, Corry, Erie county, Pa.
T. A. Bradley, 166 Stewart street, Allegheny.
George I. Rudolph, 69 Western avenue, Allegheny.
Miss Cora Stuchfield, 430 Duquesne Way, Pittsburgh, Pa.
Earl Bishop, Dunmore, Lackawanna county, Pa.
A. T. James, 610 West Fourth street, Williamsport, Lycoming county.
Mrs. A. E. Leisenring, 432 Chew street, Allentown, Lehigh county.
Ellwood W. Minster, Bristol, Bucks county.
W. S. Mullen, Hyndman, Bedford county.
Col. John K. Robison, Mifflintown, Juniata county.
Thomas B. Shaw, Chester, Delaware county.
Miss Mary Wagner, Harrisburg, Dauphin county.

FACTORY INSPECTION DISTRICTS.

District No. 1. James Knight, Jr., Nicetown and Rising Sun Lane, Philadelphia. Bounded on the north by county line, east by Delaware river, south by Lehigh avenue, and west by Broad street. Pages 35-95.

District No. 2. John R. Emsley, 124 Apsley street, Philadelphia. Bounded on the north by county line, east by Broad street, south by Lehigh avenue, and west by county line. Pages 97-159.

District No. 3. W. S. Godfrey, 2352 East Huntingdon street, Philadelphia. Bounded on the north by Lehigh avenue, east by Delaware river, south, Hanover street, Columbia and Girard avenue and Pennsylvania railroad, and west by county line. Pages 160-217.

District No. 4. Wm. H. Day, 1014 York street, Philadelphia. Bounded on the north by Pennsylvania railroad, Girard and Columbia avenues and Hanover street, east by Delaware river, on the south by Vine street, Spring Garden street, Lancaster avenue, Haverford and Pine streets to county line; west by county line. Pages 219-263.

District No. 5. Miss Mary S. Glenn, Holmesburg, Philadelphia. Bounded on the north by Haverford, Spring Garden and Vine streets, east by Delaware river, south by Market street, and west by county line. Pages 264-331.

District No. 6. Mrs. Martha E. R. Keller, 1009 Saint Bernard Place, Philadelphia. Bounded on the north by Market street, east by Delaware river, south by Pine street, and west by county line. Pages 333-373.

District No. 7. Wm. J. Hughes, 2125 South Ninth street, Philadelphia. Bounded on the north by Pine street, east by Delaware river, south by Carpenter street and Gray's Ferry road, and West Chester railroad, and on west by county line. Pages 374-443.

District No. 8. Thomas A. Lee, 2046 Reed street, Philadelphia. Pages 472-497.

District No. 8. Thomas J. Lappin, 1431 Morris street, Philadelphia. Bounded on the north by West Chester Railroad, Gray's Ferry road and Carpenter street, east by Delaware river, south by Delaware river and county line, and west by county line. Pages 444-471.

District No. 9. Ellwood W. Minster, Bristol, Bucks county, Pa. Bucks, Montgomery, Monroe, Northampton and Pike counties. Pages 499-531.

District No. 10. Thomas B. Shaw, Chester, Delaware county. Chester, Delaware and Lancaster counties. Pages 532-579.

District No. 11. Mrs. Annie E. Leisenring, 432 Chew street, Allentown. Berks, Carbon, Lehigh and Schuylkill counties. Pages 581-645.

District No. 12. John K. Robison, Mifflintown, Juniata county, Pa. Columbia, Dauphin, Juniata, Lebanon, Mifflin, Montour, Northumberland, Perry, Union and Snyder counties. Pages 646-687.

District No. 13. Earl W. Bishop, Dunmore, Lackawanna county, Pa. Bradford, Lackawanna, Luzerne, Sullivan, Susquehanna, Wayne, and Wyoming counties. Pages 688-765.

District No. 14. W. S. Mullin, Hyndman, Bedford county, Pa. Bedford, Blair, Fayette, Greene, Indiana, Washington, Westmoreland and Somerset counties. Pages 766-799.

District No. 15. T. A. Bradley, Lilly P. O., Cambria county, Pa. Allegheny and Cambria counties. Pages 800-853.

District No. 16. A. T. James, 610 West Fourth street, Williamsport, Lycoming county. Cameron, Centre, Clearfield, Clinton, Elk, Jefferson, Lycoming, McKean, Potter and Tioga counties. Pages 854-905.

District No. 17. Miss Cora E. Stuchfield, 430 Duquesne Way, Pittsburgh, Pa., Allegheny county. Pages 906-919.

District No. 18. George I. Rudolph, 1406 Western avenue, Allegheny City, Allegheny county. Pages 921-989.

District No. 19. M. N. Baker, Corry P. O., Erie county, Pa. Armstrong, Beaver, Butler, Clarion, Crawford, Erie, Forest, Lawrence, Mercer, Venango and Warren counties. Pages 990-1031.

District No. 20. Mary Wagner, Harrisburg. Adams, Cumberland, Franklin, Fulton, Huntingdon and York counties. Pages 1033-1095.

Note.—For change in districts for the year 1899 refer to map on page —.

FACTORY INSPECTOR'S REPORT.

Harrisburg, Pa., November 30, 1898.

To the Hon. Daniel H. Hastings, Governor of the Commonwealth:

The ninth annual report of the Factory Inspector's Department for the year ending October 30, 1898, shows a marked increase in the work. Eighteen thousand two hundred and twenty-eight inspections were made, an increase of eight thousand three hundred and fifteen over the number of inspections made in 1897. Four thousand official visits were also made. Fourteen thousand three hundred and eighty-three orders were issued, an increase of six thousand one hundred and eighty-four over 1897, with thirteen thousand one hundred and eighty-three compliances reported at this time.

Of the four hundred and eight thousand nine hundred and seventy-nine employes in mills, factories, etc., three hundred and ninety-nine thousand two hundred and sixty were reported as native born, forty-five thousand six hundred and thirty-three as naturalized, and forty-five thousand and eighty-six as aliens.

In the sweat shops, out of twelve thousand nine hundred and twenty-four employes, two thousand eight hundred and sixty-two were native born, one thousand three hundred and one were naturalized, and eight thousand seven hundred and sixty-one were aliens.

In the bakeries, out of six thousand four hundred and seventy-seven employes, three thousand seven hundred and eighty-five were native born, one thousand five hundred and twenty-eight were naturalized, and one thousand one hundred and sixty-four were aliens.

Of the two thousand five hundred and sixty-six family workers seven hundred and nine were native born; one hundred and ninety were naturalized, and sixteen hundred and sixty-seven were aliens.

Of the twelve thousand and fifty-one factories, sweat shops and bake shops inspected, ten hundred and seven pay monthly, nineteen hundred and ninety-two, semi-monthly, and nine thousand and fifty-two, weekly.

There were one thousand seven hundred and fifty-four accidents reported this year, eight hundred and fourteen more than last year.

This increase is due to the fact that a number of foundries, machine shops, iron and steel works were not amenable to the factory laws prior to this year. Seventy-three were fatal, eleven of which were due to carelessness, and one to intemperance. Three hundred and twenty-seven were serious, one hundred and fifty of which were due to carelessness. Thirteen hundred and four were less serious, six hundred of which were due to carelessness.

The reports made to this Department during the past year, demonstrate beyond question that the factory laws, as amended by the last General Assembly, have proven beneficial and justified their enactment. The sanitary conditions in mills, shops, factories, etc., have been improved; dangerous machinery has been more properly guarded; suitable seats have been provided for working women, and one hundred and forty-six children who could neither read nor write the English language have been removed from the work shops and placed in the public schools.

Several prosecutions were instituted against those who persisted in working minors and women over the lawful time. They were settled upon agreements that such violations would not be repeated, and all costs in the cases were paid by the defendants.

The law, regulating the manufacture of clothing, &c., enacted by the last General Assembly, would be an ideal one if the department had the power to confiscate goods made in unlawful and unhealthy places, and dispose of them in such a manner as would best protect the public health. I would recommend that such authority be given the department. It requires energetic and unceasing efforts of the department officials in this line of work, to prevent violations of the law. The large contracts for soldiers' clothing, requiring prompt and quick delivery, were an incentive to those contracting for the work, to be careless as to where the goods were made. In nine places where clothing was being manufactured, diphtheria prevailed in its worst form, and if it were possible to trace it, assuming that such clothing contained the germs of other diseases, as well as those of diphtheria, it is probable that some of the sickness in the army came from this source.

The law, regulating the manufacture of flour and meal food products, enacted by the last General Assembly, has been a blessing to those who labor in bakeries, as well as to the public at large, and with a few exceptions, has met with hearty approval.

The Factory Department should be empowered to enforce the fire escape law in respect to hotels, opera houses and public halls.

The delegates of the International Association of Factory Inspectors, representing the United States and Canada, at their convention held at Boston, Mass., last September, passed a resolution, by a unanimous vote, requesting the chiefs of the different states, to rec-

commend to the Governors of their respective states, the importance of having more restriction placed upon immigration, and that he request the Legislature to urge upon the representatives in Congress, to work and vote for such laws as would debar this class from immigrating, who are a menace to the welfare of American Labor.

The thanks of this department are extended to the Law Department of the State for services rendered in the past year. I desire to thank you for the assistance you have given me in the past four years, and the firmness with which you have upheld me in the enforcement of the laws, and the performance of my official duties.

Very truly yours,

JAMES CAMPBELL,
Factory Inspector.

Office of the Attorney General,
Harrisburg, July 21, 1898.

Hon. James Campbell, Factory Inspector:

Sir: Replying to yours of recent date, with enclosure of letters from Clinton Iron and Steel Company, I beg to say that the fifth section of the act of April 29, 1897, provides:

"It shall be the duty of the owner, agent, or lessee of any such factory, manufacturing or mercantile industry, laundry, workshop, renovating works or printing office where hoisting shafts or well holes are used, to cause the same to be properly and substantially enclosed or secured, if in the opinion of the inspector it is necessary to protect the life or limbs of those employed in such establishments. It shall be the duty of the owner, agent or lessee to provide, or cause to be provided, such proper trap or automatic doors, so fastened in or at all elevator ways, as to form a substantial surface when closed, and so constructed as to open and close by action of the elevator in its passage, either ascending or descending."

I note what you say about what the Clinton Iron and Steel Company says concerning the aforesaid provision of law: that it does not apply to the condition of their furnace. You state that a number of orders of a similar character have been issued and complied with by other owners of furnaces or factories.

If it be possible for the Clinton Iron and Steel Company to comply with this provision of the law in a reasonable exercise of its duty toward its employees, then we advise you that you should insist on a strict compliance with your request to place at the head of the incline of such furnace automatic gates or lifts, as contemplated by the act of 1897.

Yours very respectfully,

WILBUR F. REEDER,
Deputy Attorney General.

LAWS GOVERNING FACTORY INSPECTOR'S DEPARTMENT.

AN ACT

To regulate the employment and provide for the safety of women and children in manufacturing establishments, mercantile industries, laundry or renovating establishments, and to provide for the appointment of inspectors to enforce the same and other acts providing for the safety or regulating the employment of said persons.

*Section 1. Be it enacted, etc., That no minor shall be employed at labor or detained in any manufacturing establishments or mercantile

industry or any laundry, or renovating establishments for a longer period than twelve hours in any day nor for a longer period than sixty hours in any week.

*Section 2. No child under thirteen years of age shall be employed in any factory, manufacturing or mercantile establishments, renovating works or laundry within this State. It shall be the duty of every person so employing children to keep a register, in which shall be recorded the name, birthplace, age and place of residence, name of parent or guardian, and date when employment ceases of every person so employed by him under the age of sixteen years. And it shall be unlawful for any factory, manufacturing or mercantile establishments to hire or employ any child under the age of sixteen years without there is first provided and placed on file an affidavit made by the parent or guardian stating the age, date and place of birth of said child. If said child have no parent or guardian, then such affidavit shall be made by the child, which affidavit shall be kept on file by the employer, and which said register and affidavit shall be produced for inspection on demand by the inspector or any of the deputies appointed under this act.

*Section 3. Every person, firm or corporation employing women or children, or either, in any factory, manufacturing or mercantile establishment, or renovating works, or laundry, shall post and keep posted in a conspicuous place in every room where such help is employed, a printed notice, stating the number of hours per day for each day of the week required of such persons, and in every room where children under sixteen years of age are employed a list of their names with their age.

†Section 4. No person, firm or corporation employing less than five persons shall be deemed a factory, manufacturing or mercantile establishment within the meaning of this act.

Section 5. The Governor shall, immediately after the passage of this act, appoint, with the advice and consent of the Senate, a Factory Inspector, at a salary of three thousand dollars per year, whose term of office shall be three years, at the expiration of which the Governor shall appoint his successor. The said inspector shall be empowered to visit and inspect, at all reasonable hours, and as often as practicable, the factories, workshops and other establishments in the State employing women and children. It shall also be the duties of said Inspector to enforce the provisions of this act and to prosecute all violations of the same before any magistrate or any court of competent jurisdiction of the State. It shall be the duty of the Factory Inspector to report to the Governor on or before the thirtieth day of November of each year, the names of factories inspected, the number of hands employed in each, the maximum number of hours' work per-

*Amended by act of April 29, 1897.

†Section 4 repealed by act of April 29, 1897.

formed each week. Of these reports five thousand shall be published, five hundred of which shall be furnished to the Governor, two thousand to the House of Representatives, one thousand to the Senate and fifteen hundred to the Factory Inspector's Department.

Section 6. All necessary expenses incurred by said Inspector in the discharge of his duty, shall be paid from the funds of the State upon the presentation of proper vouchers for the same: Provided, That not more than four thousand dollars shall be expended by him therefor in any one year.

*Section 7. It shall be the duty of the owner, agent or lessee of any such factory, manufacturing or mercantile establishment where hoisting shafts or well holes are used, to cause the same to be properly and substantially enclosed or secured, if in the opinion of the Inspector it is necessary to protect the life or limbs of those employed in such establishments. It shall be the duty of the owners, agent or lessee to provide, or cause to be provided, such proper trap of automatic doors, so fastened in or at all elevator ways as to form a substantial surface when enclosed, and so constructed as to open and close by action of the elevator in its passage, either ascending or descending.

*Section 8. It shall also be the duty of the owner of such factory, mercantile industry or manufacturing establishment or his agent, superintendent or other person in charge of the same, to furnish and supply, or cause to be furnished or supplied, in the discretion of the Inspector, where dangerous machinery is in use, automatic shifters or other mechanical contrivances for the purpose of throwing on or off belts or pulleys. And no minor under sixteen years of age shall be allowed to clean machinery while in motion. All gearing and belting shall be provided with proper safeguard.

Section 9. It shall be the duty of the owner or superintendent to report in writing to the Factory Inspector all accidents or serious injury done to any person employed in such factory within twenty-four hours after the accident occurs, stating as fully as possible the cause of such injury.

*Section 10. A suitable and proper wash and dressing room and water closets shall be provided for females where employed, and the water closets used by females shall not adjoin those used by males, but shall be built entirely away from them and shall be properly screened and ventilated, and at all times kept in a clean condition.

Section 11. Not less than forty-five minutes shall be allowed for the noon-day meal in any manufacturing establishment in the State. The Factory Inspector, his assistant, or any of his deputies, shall have power to issue permits in special cases allowing a shorter meal time at noon, and such permit must be conspicuously posted in the main entrance of the establishment, and such permit may be revoked at any

*Amended by act of April 29, 1897.

time the Inspector deems necessary, and shall only be given where good cause can be shown.

*Section 12. That if the Inspector of Factories find that the heating, lighting, ventilating or sanitary arrangement of any shop or factory is such as to be injurious to the health of persons employed therein or that the means of egress, in case of fire or other disaster, is not sufficient, or in accordance with all requirements of law, or that the belting, shafting, gearing, elevator, drums and machinery in shops and factories are located so as to be dangerous to employes and not sufficiently guarded, or that the vats, pans or structures filled with molten metal or hot liquid are not surrounded with proper safeguards for preventing accident or injury to those employed at or near them, he shall notify the proprietor of such factory or workshop to make the alterations or additions necessary within sixty days, and any factory requiring exits or other safeguards provided for in fire escape law in case of fire, the same shall be erected by order of Factory Inspector regardless the exemption granted by any board or county commissioners, fire marshals or other authorities, and if such alteration and additions are not made within sixty days from the date of such notice, or within such time as said alterations can be made with proper diligence upon the part of such proprietors, said proprietors or agents shall be deemed guilty of violating the provisions of this act.

Section 13. The Factory Inspector, now or hereafter appointed under and by virtue of the provisions of this law, is hereby authorized to appoint such number of persons as in his judgment may be deemed necessary, not exceeding twelve, five of whom shall be females, who shall be known as deputy factory inspectors, either or any one or more of whom may be appointed to act as clerk in the main office, and whose duties it shall be to enforce the provisions of this act and of the several acts relating to factories and manufacturing establishments. The powers of said deputies shall be the same as the powers of the Factory Inspector, subject to the supervision and direction of the Factory Inspector.

Section 14. The traveling expenses of each of said deputies shall be approved by the Inspector and audited by the Auditor General of the State before payment, and the said deputy inspectors shall have an annual salary of twelve hundred dollars, to be paid monthly by the Treasurer of the State out of any moneys not otherwise appropriated.

Section 15. Said Factory Inspector shall have power to divide the State into districts, and to assign one of said deputies to each district, and may transfer any of the deputies to other districts in case the best interests of the State require it. The Inspector shall have the power of removing any of the deputy inspectors at any time.

Section 16. An office shall be furnished in the Capitol as soon as practicable, which shall be set apart for the use of the Factory In-

spector. The Factory Inspector and his deputies shall have the same power to administer oaths or affirmations as is now given to notaries public in cases where persons desire to verify documents connected with the proper enforcement of this act.

Section 17. Any person who violates any of the provisions of this act, or who suffers or permits any child or female to be employed in violation of its provisions, shall be deemed guilty of a misdemeanor, and on conviction shall be punished by a fine of not more than five hundred dollars.

Section 18. A printed copy of this act shall be furnished by the Inspector for each workroom of every factory, manufacturing or mercantile house where persons are employed who are effected by the provisions of this act, and it shall be the duty of the employer of the people employed therein to post and keep posted said printed copy of the law in each room.

Section 19. All the acts or parts of acts inconsistent with the provisions of this act are hereby repealed. Approved the twentieth day of May, Anno Domini one thousand eight hundred and eighty-nine.

Approved—The 3d day of June, A. D. 1893.

ROBERT E. PATTISON.

JAMES CAMPBELL, Factory Inspector,
Office at Harrisburg, Pa.

AN ACT

To regulate the employment and provide for the health and safety of men, women and children in manufacturing establishments, mercantile industries, laundries, renovating works or printing offices, and to provide for the appointment of inspectors, office clerks and others to enforce the same.

Section 1. Be it enacted, etc., That no minor, male or female, or adult woman shall be employed at labor or detained in any manufacturing establishments, mercantile industry, laundry, workshop, renovating works or printing office for a longer period than twelve hours in any day, nor for a longer period than sixty hours in any week.

Section 2. No child under thirteen years of age shall be employed in any factory, manufacturing or mercantile industry, laundry, workshop, renovating works or printing office within this State. It shall be the duty of every person so employing children to keep a register in which shall be recorded the name, birthplace, age and place of resi-

dence, name of parent, guardian and date when employment ceases, of every person so employed by him under the age of sixteen years. And it shall be unlawful for any factory, manufacturing or mercantile industry, laundry, workshop, renovating works or printing office, to hire or employ any child under the age of sixteen years, without there is first provided and placed on file an affidavit made by the parent or guardian, stating the age, date and place of birth of said child. If said child have no parent or guardian, then such affidavit shall be made by the child, which affidavit shall be kept on file by the employer and shall be returned to the child when employment ceases, and in no case shall there be a charge to exceed twenty-five cents for administering the oath for the issuing of the above certificates. And after the first day of January, one thousand eight hundred and ninety-eight, it shall be unlawful for any manufacturing establishment, mercantile industry, laundry, renovating works, printing office, mechanical or other industrial establishment to employ any minor under the age of sixteen years who cannot read and write in the English language, unless he presents a certificate of having attended during the preceding year, an evening or day school for a period of sixteen weeks. Said certificate shall be signed by the teacher or teachers of the school or schools which said minor attended, and said register, affidavit and certificate shall be produced for inspection on demand by the Inspector or any of the deputies appointed under this act.

Section 3. Every person, firm or corporation employing men, women and children, or either, in any factory, manufacturing or mercantile industry, laundry, work shop, renovating works or printing office shall post and keep posted in a conspicuous place in every room where such help is employed, a printed notice, stating the number of hours per day for each day of the week required of such persons; and in every room where children under sixteen years of age are employed a list of their names with their age.

Section 4. Every person, firm, association, individual, partnership or corporation employing girls or adult women in any manufacturing, mechanical or mercantile industry, laundry, workshop, renovating works or printing office in this State, shall provide suitable seats for the use of the girls and women so employed, and shall permit the use of such by them when they are not necessarily engaged in the active duties for which they are employed.

Section 5. It shall be the duty of the owner, agent or lessee of any such factory, manufacturing or mercantile industry, laundry, workshop, renovating works or printing office where hoisting shafts or well holes are used, to cause the same to be properly and substantially enclosed or secured, if in the opinion of the Inspector it is necessary to protect the life or limb of those employed in such establishments. It shall be the duty of the owner, agent or lessee to provide, or cause

to be provided, such proper trap or automatic doors, so fastened in, or at all elevator ways, as to form a substantial surface when closed, and so constructed as to open and close by action of the elevator in its passage, either ascending or descending.

Section 6. It shall also be the duty of the owner of such factory, manufacturing or mercantile industry, laundry, workshop, renovating works or printing office, or his agent, superintendent or other person in charge of the same, to furnish and supply, or cause to be furnished or supplied, in the discretion of the Inspector where dangerous machinery is in use, automatic shifters or other mechanical contrivances for the purpose of throwing on or off belts or pulleys. And no minor under sixteen years of age shall be allowed to clean machinery while in motion. All gearing and belting shall be provided with proper safeguards.

Section 7. It shall be the duty of the owner or superintendent to report in writing to the Factory Inspector all accidents or serious injury done to any person employed in such factory, within twenty-four hours after the accident occurs, stating as fully as possible the cause of such injury.

Section 8. A suitable and proper wash and dressing room and water closets shall be provided for males and females where employed, and the water closets, wash and dressing room used by females shall not adjoin those used by males, but shall be built entirely away from them, and shall be properly screened and ventilated, and at all times kept in a clean condition.

Section 9. Not less than forty-five minutes shall be allowed for the noon-day meal in any manufacturing establishments in this State. The Factory Inspector, his assistants or any of his deputies, shall have power to issue permits in special cases, allowing a shorter meal time at noon, and such permit must be conspicuously posted in the main entrance of the establishment, and such permit may be revoked at any time the Inspector deems necessary, and shall only be given where good cause can be shown.

Section 10. That if the Factory Inspector, or any of his deputies, finds, that heating, lighting, ventilating or sanitary arrangements of any factory, manufacturing or mercantile industry, laundry, workshop, renovating works or printing office is such as to be injurious to the health of persons employed therein, or that the means of egress, in case of fire or other disaster, is not sufficient, or in accordance with all the requirements of law, or that belting, shafting, gearing, elevators, drums and machinery in any factory, manufacturing or mercantile industry, laundry, workshop, renovating works or printing office are located so as to be dangerous to employes and not sufficiently guarded or that the vats, pans or structures filled with molten metal or hot liquid are not surrounded with proper safeguards for prevent-

ing accident or injury to those employed at or near them, he shall notify the proprietor of such factory, manufacturing or mercantile industry, laundry, workshop, renovating works or printing office, to make the alterations or additions necessary within sixty days, and any factory, manufacturing or mercantile industry, laundry, workshop, renovating works or printing office requiring exits or other safeguards provided for in fire escape law, the same shall be erected and located by order of Factory Inspector regardless of the exemption granted by any board of county commissioners, fire marshal or other authorities and if such alterations and additions are not made within sixty days from the date of such notice, or within such time as said alterations can be made with proper diligence upon the part of such proprietors, said proprietors or agents shall be deemed guilty of violating the provisions of this act.

Section 11. It shall be the duty of the owner or owners of boilers used for the generating of steam to be applied to machinery in all industrial institutions subject to factory inspection, to furnish from time to time, as required by the Factory Department, reports or other evidence from competent authority as to the condition of the boilers used for the generating of steam to the Factory Inspector. He or his deputies or other agents shall have the right, from time to time, to enter upon the premises where such boiler or boilers are kept for the purpose of inspecting the same and determining their safety, and if any such boiler or boilers shall be found to be in a dangerous condition and liable to explode, it shall be the duty of the Factory Inspector or one of his deputies to notify the owner or owners thereof, his or their agent or engineer in charge, of such dangerous condition, and when so notified by the State Factory Inspector, his deputy or other agents, it shall be the duty of the owner or owners thereof to immediately cease the use of said boiler or boilers until placed in safe condition.

Section 12. The Factory Inspector, in order to more effectually carry out the provisions of this law, is hereby authorized to appoint a chief clerk for the Department at a salary of fourteen hundred dollars per year, an assistant clerk at one thousand dollars per year and a messenger at six hundred dollars per year.

Section 13. A printed copy of this act shall be furnished by the Inspector to each workroom of every factory, manufacturing or mercantile industry where persons are employed who are effected by the provisions of this act, and it shall be the duty of the employer of the people employed therein to post and keep posted said printed copy of the law in each room.

Section 14. Any person who violates any of the provisions of this act or who suffers any child or female to be employed in violation of its provisions, shall be deemed guilty of a misdemeanor, and on con-

viction shall be punished by a fine of not more than five hundred dollars.

Section 15. All the acts or parts of acts inconsistent with the provisions of this act are hereby repealed.

Approved—The 29th day of April, A. D. 1897.

JAMES CAMPBELL, Factory Inspector,
Office at Harrisburg, Pa.

AN ACT

To regulate the employment and provide for the safety of persons employed in tenement houses and shops where clothing, cigarettes, cigars and certain other articles are made, or partially made, and to provide for the appointment of inspectors to enforce the same, and to provide for the safety and regulating the employment of said persons.

Section 1. Be it enacted, etc., That no room or apartment in any tenement or dwelling house shall be used, except by the immediate members of the family living therein, for the manufacture of coats, vests, trousers, knee pants, overalls, cloaks, hats, caps, suspenders, jerseys, blouses, waists, waist bands, underwear, neckwear, furs, fur trimmings, fur garments, shirts, hosiery, purses, feathers, artificial flowers, cigarettes or cigars. No person, firm or corporation shall hire or employ any person to work in any room or apartment in any rear building, or building in rear of a tenement or dwelling house, at making, in whole or in part, any of the articles mentioned in this section, without first obtaining a written permit from the Factory Inspector or one of his deputies, stating the maximum number of persons allowed to be employed therein. Such permit shall not be granted until an inspection of such premises is made by the Factory Inspector or one of his deputies, and may be revoked by the Factory Inspector at any time the health of the community or of those so employed may require it. It shall be framed and posted in a conspicuous place in the room, or in one of the rooms to which it relates. Every person, firm, company or corporation contracting for the manufacture of any of the articles mentioned in this section, or giving out the incomplete material from which they, or any of them, are to be made, or to be wholly or partially finished, shall keep a written register of the names and addresses of all persons to whom such work is given to be made, or with whom they may have contracted to do the same.

Such register shall be produced for inspection and a copy thereof shall be furnished on demand made by the Factory Inspector or one of his deputies: Providing, That nothing in this section shall be so construed as to prevent the employment of a seamstress by any family for manufacturing articles for such family use.

Section 2. Not less than two hundred and fifty cubic feet of air space shall be allowed for each and every person in any work room where persons are employed at such labor as is hereinbefore described. There shall be sufficient means of ventilation provided in each work room of every such establishment, and the Factory Inspector and deputy factory inspectors, under the direction of the Factory Inspector, shall notify the owner, agent or lessee, in writing, to provide, or cause to be provided, ample and proper means of ventilating such work room or rooms, and shall prosecute such owner, agent or lessee if such notification be not complied with within ten days of the service of such notice.

Section 3. The Factory Inspector is hereby authorized to appoint such additional number of persons as in his judgment may be deemed necessary, not exceeding eight, who shall be known as deputy factory inspectors.

Section 4. The traveling expenses of each of said deputies shall be approved by the Inspector and audited by the Auditor General of the State before payment, and the said deputy inspectors shall have an annual salary of twelve hundred dollars, to be paid monthly by the Treasurer of the State, out of any moneys not otherwise appropriated.

Section 5. The deputy inspectors, now and hereafter appointed under the provisions of this act, shall have the same powers and compensation as those appointed under the provisions of the factory act, approved June third, one thousand eight hundred and ninety-three, and shall be subject in like manner to the orders of the Factory Inspector.

Section 6. Any person who violates any of the provisions of this act, or who suffers or permits any of the articles hereinbefore described to be made in violation of its provisions, shall be deemed guilty of a misdemeanor, and on conviction shall be punished by a fine of not more than five hundred dollars or less than one hundred dollars for each offense.

Approved the 11th day of April, A. D. 1895.

DANIEL H. HASTINGS.

The foregoing is a true and correct copy of the act of the General Assembly No. 20.

JAMES CAMPBELL, Factory Inspector,
Office at Harrisburg, Pa.

AN ACT

To regulate the employment and provide for the health and safety of persons employed where clothing, cigarettes, cigars and certain other articles are made or partially made, and that said articles be made under clean and healthful conditions.

Section 1. Be it enacted, etc., That no room or apartment in any tenement or dwelling house shall be used for the manufacture of coats, vests, trousers, knee pants, overalls, skirts, dresses, cloaks, hats, caps, suspenders, jerseys, blouses, waists, waist bands, underwear, neckwear, furs, fur trimmings, fur garments, shirts, hosiery, purses, feathers, artificial flowers, cigarettes or cigars, and no person, firm or corporation shall hire or employ any person to work in any room, apartment, or in any building, or parts of building, at making in whole or in part any of the articles mentioned in this section, without first obtaining a written permit from the Factory Inspector, or one of his deputies, stating the maximum number of persons allowed to be employed therein, and that the building, or part of building, intended to be used for such work or business is thoroughly clean, sanitary and fit for occupancy for such work or business. Such permit shall not be granted until an inspection of such premises is made by the Factory Inspector or one of his deputies. Said permit may be revoked by the Factory Inspector at any time the health of the community or those so employed may require it. It shall be framed and posted in a conspicuous place in the room, or in one of the rooms to which it relates. Every person, firm, company or corporation contracting for the manufacture of any of the articles mentioned in this section, or giving out the incomplete material from which they or any of them are to be made, or to be wholly or partially finished, shall, before contracting for the manufacture of any of said articles, or giving out said material from which they or any of them are to be made, require the production by such contractor, person or persons of said permit from the Factory Inspector as required in this section, and shall keep a written register of the names and addresses of all persons to whom such work is given to be made, or with whom they may have contracted to do the same. Such register shall be produced for inspection and a copy thereof shall be furnished on demand made by the Factory Inspector or one of his deputies: Provided, That nothing in this section shall be so construed as to prevent the employment of a seamstress by any family for manufacturing articles for such family use.

Section 2. Not less than two hundred and fifty cubic feet of air space shall be allowed for each and every person in any work room where persons are employed at such labor as hereinbefore described.

There shall be sufficient means of ventilation provided in each work room of every such establishment, and said work room or rooms in said establishment shall be kept thoroughly clean, sanitary and fit for occupancy for such work or business. The Factory Inspector and Deputy Factory Inspector, under the direction of the Factory Inspector, shall notify the owner, agent or lessee in writing to provide, or cause to be provided, ample and proper means for ventilating such work room or rooms, and to put said work room or rooms in a thoroughly clean, sanitary and fit condition for occupancy for such work or business, and shall prosecute such owner, agent or lessee if such notification be not complied with within ten days of the service of such notice; and any factory or shop under this act requiring exits or safeguards provided for in the fire escape law, the same shall be erected and located by order of the Factory Inspector regardless of the exemption granted by any board of county commissioners, fire marshals or other authorities, and if such alterations and additions are not made within sixty days from the date of such notice, or within such time as said alterations can be made with proper diligence upon the part of such proprietors, said proprietors or agents shall be deemed guilty of violating the provisions of this act.

Section 3. A printed copy of this act shall be furnished by the Inspector for each work room of every factory, manufacturing or mercantile house where persons are employed who are affected by the provisions of this act, and it shall be the duty of the employer of the person employed therein to post and keep posted said printed copy of the law in each room.

Section 4. Any person who violates any of the provisions of this act, or refuses to comply with any requirements of the Factory Inspector or a Deputy Factory Inspector as provided herein, shall be guilty of a misdemeanor, and on conviction shall be punished by a fine of not less than twenty dollars nor more than fifty dollars for the first offense, and not less than fifty dollars nor more than one hundred dollars for a second offense, or imprisonment for not more than ten days, and for a third offense by a fine of not less than two hundred and fifty dollars and not more than thirty days imprisonment.

Section 5. All the acts or parts of acts inconsistent with the provisions of this act are hereby repealed.

Approved—The 5th day of May, A. D. 1897.

DANIEL H. HASTINGS.

JAMES CAMPBELL, Factory Inspector.

Offices at Harrisburg, Pa.

AN ACT

To regulate the manufacture of flour and meal food products.

Section 1. Be it enacted, etc., That no employe shall be required, permitted or suffered to work in a biscuit, bread or cake bakery, confectionery establishment more than six (6) days in any one week, said week to commence on Sunday not before six o'clock post meridian, and to terminate at the corresponding time on Saturday of the same week. No person under the age of eighteen (18) years shall be employed in any bake-shop between the hours of nine (9) o'clock at night and five (5) o'clock in the morning. Excepted from this rule shall be the time on Sunday for setting the sponges for the night's work following.

Section 2. All buildings or rooms occupied as a biscuit, bread, pretzel, pie or cake bakery, or macaroni establishment, shall be drained and plumbed in the manner directed by the rules and regulations governing the house drainage and plumbing as prescribed by law, and all rooms used for the purpose aforesaid shall be ventilated by means of air shafts, windows or ventilating pipes, so as to insure a free circulation of fresh air. No cellar or basement, not now used for a bakery, shall hereafter be occupied and used as a bakery, unless the proprietor shall have previously complied with the sanitary provisions of this act.

Section 3. Every room used for the manufacture of flour or meal food products shall have an impervious floor, constructed of cement or of tiles laid in cement, or of wood which all the crevices shall be filled in with putty, and the whole surface treated with oil varnish. The inside walls and ceiling shall be plastered and either be painted with oil paint, three (3) coats, or be lime-washed, or the side walls plastered and wainscoted to the height of six (6) feet from the floor, and painted or oiled; when painted, shall be renewed at least once in every five years, and shall be washed with hot water and soap at least once in every three (3) months; when lime-washed the lime-washing shall be renewed at least once in every three (3) months. The furniture and utensils in such room shall be so arranged that the furniture and floor may at all times be kept in a thoroughly sanitary and clean condition. No domestic or pet animal shall be allowed in a room used as a biscuit, bread, pie or cake bakery, or in any room in such bakery where flour or meal products are stored.

Section 4. The manufactured flour and meal food products shall be kept in perfectly dry and airy rooms, so arranged that the floors, shelves and all other places for storing the same can be easily and perfectly cleaned.

Section 5. Every such bakery shall be provided with a proper wash-

room and water closet or closets, apart from the bake room or rooms where the manufacture of such food products is conducted, and no water closet, earth closet, privy or ash pit shall be within or communicate directly with the bake room of any bakery, hotel or public restaurant.

Section 6. Every sleeping room for persons employed in every bakery shall be kept separate from the room or rooms where flour or meal products are manufactured or stored, and shall be provided with one or more external glazed windows, each of which shall be at least nine (9) superficial feet in area, of which at least four and one-half ($4\frac{1}{2}$) superficial feet shall be made to open for ventilation; and such sleeping places when they are on the same floor as the bakery, shall be inspected in order to maintain them in a condition of cleanliness.

Section 7. No employer shall knowingly require, permit or suffer any person to work in his bakeshop who is affected with consumption of the lungs, or with scrofulous diseases, or with any venereal diseases, or with any communicable skin affection, and every employer is hereby required to maintain himself and his employes in a clean condition while engaged in the manufacture, handling or sale of such food products, and it is hereby made the duty of the Board of Health to enforce the provisions of this section.

Section 8. Any person who violates any of the provisions of this act, or refuses to comply with any requirements as provided herein of the Factory Inspector or his deputy, who are hereby charged with the enforcement of this act, excepting section seven, shall be guilty of a misdemeanor, and on conviction shall be punished by a fine of not less than twenty nor more than fifty (50) dollars for a first offense, and not less than fifty (50) nor more than one hundred (100) dollars for a second offense, or imprisonment for not more than ten (10) days; and for a third offense, by a fine of not less than two hundred and fifty (250) dollars and more than thirty (30) days imprisonment.

Section 9. The Factory Inspector is authorized to issue a certificate of satisfactory inspection to a person conducting a bakery where such bakery is conducted in compliance with all the provisions of this act.

Section 10. The owner, agent or lessee of any property affected by the provisions of sections two, three and five of this act, shall, within thirty (30) days after the service of a notice requiring any alterations to be made in or upon such premises, comply therewith, and such notice shall be in writing and may be served upon such owner, agent or lessee, either personally or by mail, and notice to the last known address of such owner, agent or lessee shall be deemed sufficient for the purpose of this act.

Section 11. A copy of this act shall be conspicuously posted and kept posted in each work room of every bread, cake or pie bakery, or confectionery establishment in this State.

Section 12. This act shall take effect thirty (30) days after the same shall have been approved and signed by the Governor of this Commonwealth.

Approved—The 27th day of May, A. D. 1897.

AN ACT

To prevent the employment of any minor under the age of fourteen years in or about elevators.

Section 1. Be it enacted by the Senate and House of Representatives of the Commonwealth of Pennsylvania in General Assembly met, and it is hereby enacted by the authority of the same, That no person, firm or corporation shall employ or permit any minor under the age of fourteen years to have the care, custody, management or operation of any elevator. Any person, firm or corporation employing any minor under the age of fourteen years to operate, manage or otherwise have the care or custody of an elevator, shall be guilty of a misdemeanor and upon conviction thereof shall be sentenced to pay a fine of not less than twenty-five dollars nor more than one hundred dollars.

Approved—The 24th day of May, A. D. 1893.

ROBERT E. PATTISON.

AN AMENDMENT

To an act, entitled "An act to provide for the semi-monthly payment of wage workers," approved the twenty-third day of May, Anno Domini one thousand eight hundred and eighty-seven, and providing a penalty for its violation.

Section 1. Be it enacted by the Senate and House of Representatives of the Commonwealth of Pennsylvania in General Assembly met, and it is hereby enacted by the authority of the same, That in first section of an act, entitled "An act to provide for the semi-monthly payment of wage workers," approved twenty-third day of May, Anno Domini one thousand eight hundred and eighty-seven, which reads as follows, namely:

Section 1. Be it enacted, etc., That from and after a period of two months subsequent to the date of the passage of this act, every individual, firm, association or corporation, employing wage workers, skilled or ordinary laborers engaged at manual or clerical work, in the business of mining or manufacturing, or any other employes, shall make payment in lawful money of the United States to the said employes, laborers and wage workers, or to their authorized representatives, the first payment to be made between the first and fifteenth, and the second payment between the fifteenth and thirtieth, of each month, the full amount of wages or earnings due said employes, laborers and wage workers upon the first and fifteenth instant of each and every month wherein such payments are made. And in case any individual, firm, corporation, association or other employer shall neglect or refuse to make payment upon the dates herein set forth, to wage workers, laborers or other employes, employed by or with the authority of such individual, firm, corporation, association or other employer, then such amount of wages or earnings shall be and become a legal claim against such individual, firm, corporation, association or other employer, and shall be recoverable by law, with interest from the date such amount is due, be amended so that the same shall read as follows, namely:

Section 1. That from and after a period of two months subsequent to the date of the passage of this act, every individual, firm, association or corporation, employing wage workers, skilled or ordinary, laborers engaged at manual or clerical work, in the business of mining or manufacturing, or any other employes, shall make payment in lawful money of the United States to the said employes, laborers and wage workers, or to their authorized representatives; the first payment to be made between the first and fifteenth, and the second payment between the fifteenth and thirtieth of each month, the full net amount of wages or earnings due said employes, laborers and wage workers upon the first and fifteenth instant of each and every month wherein such payments are made. And in case any individual, firm, corporation or association or other employer shall refuse to make payment when demanded, upon the dates herein set forth, to wage workers, laborers or other employes, employed by or with the authority of such individual, firm, corporation or association or other employer, the said individual, the members of the firm, the directors, officers and superintendents or managers of said corporation and associations shall be guilty of a misdemeanor, and upon conviction shall be sentenced to pay a fine not to exceed two hundred dollars.

Section 2. No assignment of future wages payable semi-monthly under the provisions of this act shall be valid, nor shall any agreement be valid that relieves the said firms, individuals, corporations or associations from the obligations to pay semi-monthly, and in the lawful money of the United States.

Section 3. It is hereby made the duty of the Factory Inspector and his deputies to bring action in the name of the Commonwealth against every individual, firm, corporation or association violating the provisions of this law, upon the request of any citizens of this Commonwealth. Upon his failure to do so, any citizen of this Commonwealth is hereby authorized to do so in the name of the Commonwealth.

Section 4. All laws or parts of laws inconsistent with the provisions of this act be and the same are hereby repealed.

Approved—The 20th day of May, A. D. 1891.

ROBERT E. PATTISON.

FIRE ESCAPE LAW OF JUNE 3d, 1885.

Section 1. Be it enacted by the Senate and House of Representatives of the Commonwealth of Pennsylvania in General Assembly met, and it is hereby enacted by the authority of the same, That all the following described buildings within this Commonwealth, to wit: Every building used as a seminary, college, academy, hospital, asylum, or hotel for the accommodation of the public, every storehouse, factory, manufactory or workshop of any kind in which employes or operatives are usually employed at work in the third or any higher story, every tenement house or building in which rooms or floors are usually let to lodges or families, every public hall or place of amusement, every parochial or public school building, when any of such buildings are three or more stories in height, shall be provided with a permanent, safe, external means of escape therefrom in case of fire, independent of all internal stairways; the number and location of such escapes to be governed by the size of the building and the number of its inmates, and arranged in such a way as to make them readily accessible, safe and adequate for the escape of said inmates. Such escapes to consist of outside, open, iron stairway, of not more than forty-five degrees slant, with steps not less than six inches in width and twenty-four inches in length. And all of said buildings capable of accommodating from one hundred to five hundred or more persons as operatives, guests or inmates, shall be provided with two stairways, and more than two stairways, if such be necessary to secure the speedy and safe escape of said inmates, in case the internal stairways are cut off by fire or smoke. And it shall be the duty of the owner or owners in fee or for life, of every such building, and of the trustee or trustees of every estate, association, society, college, seminary, academy, hospital or asylum, owning or using any such building, and of the board of education or board of school directors having charge of any such

school building, to provide and cause to be securely affixed outside of every such building such permanent, external, unenclosed fire escape: Provided, That nothing herein contained shall prohibit any person whose duty it is under this act to erect fire escapes, from selecting and erecting any other and different device, design or instrument, being a permanent, safe, external means of escape, subject to the inspection and approval of the constituted authorities for that purpose.

Section 2. It shall be the duty of the board of fire commissioners, in conjunction with the fire marshal of the district where such commissioners and fire marshal are elected or appointed, to first examine and test such fire escape or escapes, and after upon trial said fire escape or escapes should prove to be in accordance with the requirements of section one of this act, then the said fire marshal, in connection with the fire commissioners, or a majority of them, shall grant a certificate, approving said fire escape, thereby relieving the party or parties to whom such certificate is issued from the liability of fines, damages and imprisonment imposed by this act: Provided further, That in counties where no such fire marshal or fire commissioners exist, then the county commissioners in each said county shall be the board of examiners, and shall grant certificates of approval when escapes are erected in accordance with the requirements of section one of this act.

Section 3. That every person, corporation, trustee, board of education and board of school directors neglecting or refusing to comply with the requirements of section one of this act, in erecting said fire escape or escapes, shall be liable to a fine not exceeding three hundred dollars, and also be deemed guilty of a misdemeanor punishable by imprisonment for not less than one month or more than two months. And in case of fire occurring in any of said buildings in the absence of such fire escape or escapes, approved by certificates of said officials, the said person or corporations shall be liable in an action for damages in case of death or personal injuries, and shall also be deemed such fire breaking out in said building, and shall also be deemed guilty of a misdemeanor, punishable by imprisonment for not less than six months nor more than twelve months; and such action for damages may be maintained by any person now authorized by law to sue as in other cases of similar injuries: Provided, That nothing in this act shall interfere with fire escapes now in use approved by the proper authorities.

Approved—The 3d day of June, A. D. 1885.

ROBERT E. PATTISON.

A SUPPLEMENT TO THE FIRE ESCAPE LAW OF JUNE 3d, 1885.

Section 1. Be it enacted by the Senate and House of Representatives of the Commonwealth of Pennsylvania in General Assembly met, and it is hereby enacted by the authority of the same, That in addition to the means of escape required in section one of the act to which this is a supplement, it shall be the duty of the owner or owners, in fee or for life, of every building constructed more than two stories high and used or intended to be used as a hotel, factory, manufactory, workshop, tenement house, school, seminary, college, academy, hospital, asylum, hall or place of amusement, and of the trustee or trustees of every estate, association, society, college, academy, hospital or asylum, owning or using any building constructed more than two stories high, and used or intended to be used for any of said purposes, and of the board of education, or board of school directors, having charge of any building constructed more than two stories high, and used or intended to be used as a public school, to provide and cause to be securely affixed to a bolt through the wall over the window head inside, of at least one window, in each room, on the third floor, and in each room on each higher floor of every such building, a chain at least ten feet in length with a rope at least one inch in diameter, securely attached thereto, of sufficient length to extend to the ground, or such other appliance as may be approved by the board of fire commissioners of any city or county having a board of fire commissioners; or by the county commissioners of any county where there is no board of fire commissioners: Provided, however, That when the third floor or any higher floor, of any such building is not sub-divided into rooms, then at least six windows on each of such floors shall be provided with such chains and ropes, or such other appliances as may be approved by any board of fire commissioners, or by the county commissioners of any county, where no board of fire commissioners shall exist: And provided further, That whenever any room on the third floor, or any higher floor, of any such building shall contain more than three windows, then at least one window, out of every three windows, in every such room shall be provided with such chain and rope or such other appliances as may be approved by any board of fire commissioners, or by the county commissioners of any county, having no board of fire commissioners. And each of such ropes shall be coiled and kept in an unlocked box in an unobstructed place, near the inside sill of the window to which such rope is attached. And in all hotels, factories, manufactories, workshops, schools, seminaries, colleges, hospitals, asylums, halls or places of amusement, or other places mentioned in this act, the hallways and stairways shall be properly lighted at night, and at the head and foot

of each flight of stairs, and at the intersection of all hallways with the main corridors, shall be kept during the night a red light; and one or more proper alarms or gongs, capable of being heard throughout the building, shall always remain easy of access and ready for use in each of said buildings, to give notice to the inmates in case of fire. And every keeper of such hotel, factory, manufactory, workshop, school, seminary, college, hospital, asylum, hall or place of amusement, shall keep posted in conspicuous place in every sleeping room a notice descriptive of such means of escape and the board of fire commissioners and the county commissioners of any county having no board of fire commissioners, shall have the right to designate the location of the chains and ropes, or such other appliances, in conformity with this act, to be attached to any building under the provisions of this act, and shall grant certificates of approval to every person, firm, corporation, trustee, board of education, and board of school directors, complying with the requirements of this act, which certificates shall relieve the party or parties to whom the same shall be issued from the liabilities, fines, damages and imprisonment imposed by this act.

Section 2. That every person, corporation, trustee, board of education, and board of school directors neglecting or refusing to comply with the requirements of the first section of this act, shall be liable to a fine not exceeding three hundred dollars, to be collected as fines are now by law collectible, and shall also be deemed guilty of a misdemeanor, punishable by imprisonment for not less than one month, nor more than twelve months. And in case of fire occurring in any such building not provided with the chains and ropes, or such other appliances as may be required by any board of fire commissioners, or by the county commissioners of any county where no board of fire commissioners shall exist, in accordance with the requirements with the first section of this act, the person, persons, trustee, trustees, corporation, board of education or board of school directors, who or which, neglected or refused to provide such building with the chains and ropes, or such other appliances as aforesaid, shall be liable in an action for damages in case of death or personal injury being caused in consequence of such fire breaking out in said building, and such action may be maintained by any person or persons now authorized by law to sue in other cases for injuries caused by neglect of duty.

Approved—The 3d day of June, A. D. 1885.

ROBERT E. PATTISON.

FIRE ESCAPE LAW OF JULY 12, 1897.

AN ACT

To amend section one of an act approved the third day of June, Anno Domini one thousand eight hundred and eighty-five, entitled "An act to amend an act, entitled 'An act to provide for the better security of life and limb in cases of fire in hotels and other buildings,' " approved the eleventh day of June, Anno Domini one thousand eight hundred and seventy-nine, extending the provisions thereof to buildings used in whole or in part for offices not of fire proof construction.

Section 1. Be it enacted, etc., That section one of said act approved the third day of June, Anno Domini one thousand eight hundred and eighty-five, which reads as follows: "That all the following described buildings within this Commonwealth, to wit: Every building used as a seminary, college, academy, hospital, asylum, or hotel for the accommodation of the public, every storehouse, factory, manufactory, or workshop of any kind, in which employes or operators are usually employed at work in the third or any higher story, every tenement house or building in which rooms or floors are usually let to lodgers or families, every public hall or place of amusement, every parochial or public school building, when any of such buildings are three or more stories in height, shall be provided with a permanent, safe external means of escape therefrom, in case of fire, independent of all internal stairways; the number and location of such escapes to be governed by the size of the building, and the number of its inmates, and arranged in such a way as to make them readily accessible, safe and adequate for the escape of said inmates. Such escapes to consist of outside, open, iron stairway, of not more than forty-five degrees slant, with steps not less than six inches in width and twenty-four inches in length. And all of said buildings capable of accommodating from one hundred to five hundred or more persons as operatives, guests or inmates, shall be provided with two such stairways or more than two stairways, if such be necessary to secure the speedy and safe escape of such inmates, in case the internal stairways are cut off by fire or smoke. And it shall be the duty of the owner or owners in fee or for life, of every such building, and of the trustee or trustees of every estate, association, society, college, seminary, academy, hospital or asylum, owning or using any such building, and of the board of education or board of school directors having charge of any such school building, to provide and cause to be securely affixed outside of every such building such permanent external unenclosed fire escape: Provided, That nothing herein contained shall prohibit any person whose duty it is under this act to erect fire escapes, from selecting and erect-

ing any other and different device, design or instrument, being a permanent, safe, external means of escape, subject to the inspection and approval of the constituted authorities for that purpose," be amended so as to read as follows:

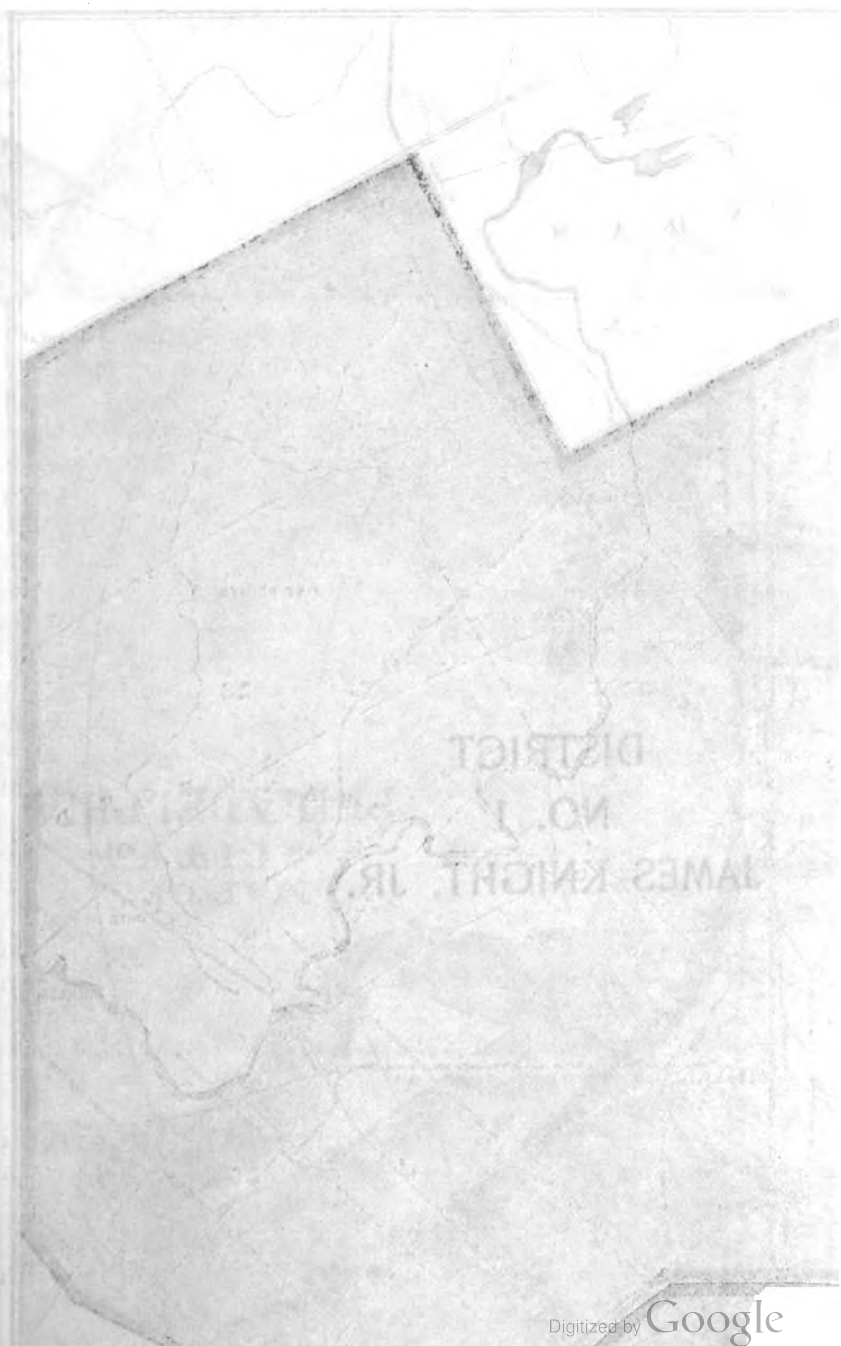

Section 1. That all the following described buildings within this Commonwealth, to wit: Every building used as a seminary, college, academy, hospital, asylum, or hotel for the accommodation of the public, every storehouse, factory, manufactory or workshop of any kind in which employes or operatives are usually employed at work in the third or any higher story, every tenement house or other building in which rooms or floors are usually let to lodgers or families, every public hall or place of amusement, every parochial or public school building, and every building used in whole or in part for offices, when any of such buildings are three or more stories in height, except buildings used in whole or in part for offices which are of fire proof construction, shall be provided with a permanent, safe, external means of escape therefrom in case of fire, independent of all internal stairways; the number and location of such escapes to be governed by the size of the building and the number of its inmates, and arranged in such a way as to make them readily accessible, safe and adequate for the escape of said inmates. Such escapes to consist of outside open iron stairway of not more than forty-five degrees slant, with steps not less than six inches in width and twenty-four inches in length. And all of said buildings, capable of accommodating from one hundred to five hundred or more persons as operatives, guests or inmates, shall be provided with two such stairways, and more than two stairways if such be necessary to secure the speedy and safe escape of said inmates in case the internal stairways are cut off by fire or smoke. And it shall be the duty of the owner or owners in fee for life, of every such building, and of the trustee or trustees of every estate, association, society, college, seminary, academy, hospital or asylum, owning or using any such building, and of the board of education or board of school directors having charge of any such school building, to provide and cause to be securely affixed outside of every such building such permanent external unenclosed fire escape: Provided, That nothing herein contained shall prohibit any person whose duty it is under this act to erect fire escapes from selecting and erecting any other and different device, design or instrument, being a permanent, safe external means of escape, subject to the inspection and approval of the constituted authorities for that purpose.

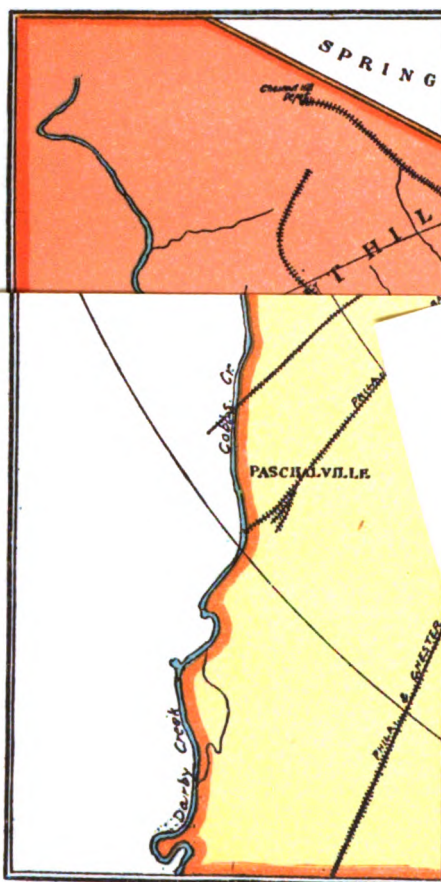

Approved—The 12th day of July, A. D. 1897.

DANIEL H. HASTINGS.

The foregoing is a true and correct copy of the act of the General Assembly No. 204.

FRANK REEDER,
Secretary of the Commonwealth.

FIRST INSPECTION DISTRICT.

JAMES KNIGHT, JR., *Inspector.*

Philadelphia, Pa., November 28, 1898.

Mr. James Campbell, Chief Factory Inspector:

Dear Sir: As it is customary for the deputies to send you a yearly report, I hereby submit the following as the narrative of my labors in the First district during the year.

I can safely say that the law is enforced and strictly observed, and I have had no trouble to have the orders given, attended to.

I made a total of 1,087 inspections, including factory, bake shop and family inspections, quite a number more than last year. The increase is owing to the fact that the law gives the inspector the right to visit all places where men, women and children are employed, and the fact that the year has been more prosperous. A number of new mills have been erected in my district. This is gratifying and evidence of returning prosperity. I hope the coming year will duplicate, if not exceed the present one.

I have investigated 42 accidents and I am glad to say that there was none of a fatal character, although some of them were serious, but most of them of a trifling nature.

The elevator I consider especially dangerous, and I have been very particular in regard to having them properly guarded.

I am pleased to state that there are no sweat shops in my district, and a very few family workers. In all cases where a permit was asked for, for family worker, the conditions were first class.

The law preventing minors and women from being employed more than 60 hours per week, I consider extremely beneficial. It used to be the practice in some of the mills, especially hosiery mills, in which the employes were mostly females and minors, to work during the busy season until 9 or 10 o'clock at night, and then shut down for weeks at a time. The law has changed this, and now the mills run more regularly.

Thanking you for your courteous treatment during the year, I remain,

Yours respectfully,

JAMES KNIGHT, Jr.,
Deputy Factory Inspector.

SECOND INSPECTION DISTRICT.

JOHN R. EMSLEY, *Inspector*.

Philadelphia, Pa., November 1, 1898.

James Campbell, Esq., Factory Inspector:

Dear Sir: Statistics, usually dry and uninteresting to the casual reader, can and will in your report and figures tell a story of increased employment of labor and greater prosperity and comforts to all engaged in the varied industries of our State.

My humble part in it will be to submit a report of my work in the second district which I do with pleasure, trusting that when it is combined with the reports and data furnished by your other deputies, it may afford you satisfaction and prove to not only our friends, but to the people in general, that the Factory Department is doing a good work.

The detailed report herewith submitted, will show that I have made eight hundred and sixty-two inspections of factories, sixty-four visits to the same, thirty-seven inspections of work shops in tenements and dwellings, one hundred and nineteen inspections of bake shops and nine visits to those establishments, making a total of one thousand and eighteen inspections and seventy-three visits. I have also investigated thirty-eight accidents, six serious and thirty-two of a less serious character.

Through changes in the law, many orders were necessarily given and it affords me pleasure to report the great majority of which were promptly complied with.

I would suggest that all public buildings, such as public halls, opera houses and theatres be put under the Factory Department, so that the provisions of the fire escape law may be better applied to them.

With a few changes in our existing laws, I feel certain your deputies could do better work and show even better results.

Trusting that it may not be thought inappropriate for me to express the pleasure I have had in my official relations to the Department, and wishing you an even greater measure of success for the coming year, I remain,

Very respectfully yours,

JOHN R. EMSLEY,

Deputy Inspector, District No. 2.

7-16-98

THIRD INSPECTION DISTRICT.

W. S. GODFREY, *Inspector.*

Philadelphia, Pa., November, 1898.

James Campbell, Esq., Chief Factory Inspector:

Dear Sir: I again submit to you my annual report for the year ending October 31, 1898. The details having been submitted in weekly and monthly reports, I render a synopsis in general of my work and experience during this, my third year.

My work for the year has been chiefly the inspection of factories. Having a district which is composed of tenement mills of very old order, it has been somewhat difficult to put these places on a footing with more modern mills. I have made many suggestions for improvement in the older mills which, in most cases, have been carried out and to-day they are in better and safer condition than they were last year.

Orders for the guarding of machinery in every case have been satisfactorily complied with; fire escape orders have also been complied with, with the exception of three.

Water supply being limited, I have had some complaints respecting orders given for closets and wash rooms. Up to the present time, all orders have been complied with, excepting one. The posting of laws and time cards in all cases has been carried out. The requiring of children's certificates has been strictly adhered to; a great number of these I have granted at my home. I have dismissed from the mills during the year, sixteen children for illiteracy; only two of these were Americans.

The tenement house work rooms are of an excellent order, as reports will show.

The sweat shop places in my district are above criticism, the industrious German-Americans being the principal workers.

The number of accidents during the year has been comparatively small, considering the great number of industries. Thirty-nine reports of accidents have been investigated by me; of these, two were fatal, nine were serious, and twenty-eight were of a less serious nature.

In conclusion, I desire to say this has been one of the most interesting years since the inception of the factory act, more having been accomplished. On the whole, I am sure the work of this Department has been productive of much good and has been appreciated by all concerned.

Very truly,
W. S. GODFREY,
Deputy Inspector, Third District.

FOURTH INSPECTION DISTRICT.

WILLIAM H. DAY, *Inspector.*

Philadelphia, Pa., November 1, 1898.

James Campbell, Esq., Chief Factory Inspector:

Dear Sir: I herewith submit to you a brief summary of the work done in the Fourth district for the year ending October 31, 1898.

During the past year I have inspected five hundred and forty-four factories, thirty-one sweat shops (tailors), one hundred and ninety-six family, or home workers, one hundred and thirty-one bake shops, made two hundred and seventy special visits, and have investigated eighty-one accidents, four of which were fatal, eight serious, and the balance of a less serious or trivial nature, which were mostly due to the carelessness of the person injured, or were unavoidable mishaps.

In regard to the family workers, I can say there has not been a single case where I had to question for one moment the issuing of a permit, the conditions in every case being first class.

I have issued sixteen hundred and ninety-two orders in factories, the great majority of which have been complied with.

Forty-seven orders issued in sweat shops have all been carried out, and two hundred and seventy-eight orders issued in bake shops, many of which were complied with.

The factory act, approved April 29, 1897, has given us access to many factories and shops where the factory law and the inspector were unknown. In these places from which we had previously been excluded, owing to section 4 of the old law, we have found the conditions in some places to be detrimental to the health and safety of the employes, either in sanitary condition unguarded machinery, or means of exit in case of fire. The inspection of the places has resulted in marked improvements in many cases.

Taken altogether, the working of the Department has been a great success, and will, I trust, continue to meet with the good results already attained.

Very respectfully yours,

WILLIAM H. DAY,
Deputy Factory Inspector.

FIFTH INSPECTION DISTRICT.

MARY S. GLENN, *Inspector.*

Holmesburg, October 31, 1898.

Mr. James Campbell, Factory Inspector, Harrisburg, Pa.:

Dear Sir: I have the honor herewith to present my annual report of work done in the Fifth district for the year ending October 31, 1898. During this time places have been inspected that were heretofore exempt, and in a great number radical changes were necessary to comply with the law. Reviewing the year I feel satisfied with the result of my inspections, knowing that many working people are now enjoying the comforts of good sanitation, and safety for life and limb in case of fire, who without the amended factory law would be spending the greater portion of their lives in unwholesome and dangerous places. The analysis of the work which accompanies this letter shows better than words can do just what has been accomplished.

Nearly all visited this year have been courteous and showed a disposition to obey the law, and the very small percentage of noncompliances with orders issued, plainly indicates that the factory law is accepted as an established fact, and that it will be conducive of more good to the employes, from a hygienic view, than any other on the statute books of the State. The circulation of the printed reports of the Department describing the conditions found by a deputy is a very gentle reminder that all conditions must be complied with. Upon one visit I found the sanitation of a shop far below the health standard, and ordered immediate cleaning. While I was making out the report the proprietor stood near by, and when I wrote the word "bad" in answer to the question relative to sanitation, he made serious objection, claiming that this report going among his customers would injure his trade by depreciating the value of his goods.

He complied with requirements within two hours, and was given credit for the change.

I have had considerable complaint against the application of section 1 of the act relative to adult women. It is frequently urged that they have full right to make contracts as to their hours of labor, and that no statute can deprive them of this right. My invariable

answer has been that it is my duty to enforce the law and the instructions of the Department, and if a change is desired it must be sought in the proper channels.

I note increasing prosperity throughout my district, with many workshops and manufactories beyond comparison with any recent year, and I note also that the visits of the inspector are better received in prosperous than in depressed conditions. There are occasional instances of hardship under section 1 of the act, and these I carefully refer to the Department.

Take for example the case of manufacturers who have made little or nothing in the way of profit for several years, now busy, very busy, and working over time. Some classes of work cannot be trusted to a change of hands from night to day, without injury to the article made. Silk and satin fancy boxes are cases in point. Hands leaving them incomplete at six in the evening find that their work cannot be taken up by other hands at night, and when this is done by night hands, necessarily skilled, and limited in number (may be done by those who have worked during the day at another place). Thus the purpose of the law is defeated, becomes a hardship to the manufacturer at certain busy seasons. The cases of hardship, however, are few compared with the general good effected by and through the law, which is beneficent in many ways, and promotive of the highest good in matters of health and safety.

All of which is respectfully submitted.

Very truly yours,

MARY S. GLENN.

SIXTH INSPECTION DISTRICT.

MARTHA E. R. KELLER, *Inspector.*

Philadelphia, Pa., November 29, 1898.

Mr. James Campbell, Inspector of Factories, Harrisburg, Pa.:

Dear Sir: I herewith send you a summary of the work done by me in the Sixth district, for the year ending October 31, 1898.

During the year I have made 726 inspections; 558 factory, 131 sweat shop, 35 family and 2 bake shop inspections. I have also made 402 visits to factories, 136 to sweat shop, and 3 to bake shops. I have issued 921 orders; 735 factory, 146 sweat shop, 35 family and 5 bake shop orders, and 907 of them have been complied with.

The number of compliances with orders issued, I justly feel proud of. Those not complied with were issued too late in the year to enable me to report them at this time.

What impresses me most forcibly is the fact that the work to be done is so immense that it is impossible to cover the ground as often as it should be, and the benefits to employer and employe can not be measured by money consideration.

Thanking our Chief and his assistants for the courtesy and kindness invariably shown, I am,

Respectfully,

MARTHA E. R. KELLER.

Deputy Factory Inspector.

SEVENTH INSPECTION DISTRICT.

WILLIAM J. HUGHES, *Inspector.*

Philadelphia, November 3, 1898.

James Campbell, Esq., Chief Factory Inspector, Harrisburg, Pa.:

Dear Sir: My regular reports, embracing as they do the number of places visited by me, orders given, etc., for past year, have been received by you; they speak for themselves. I will, therefore, not burden this Annual Report by reference to them, except to express the hope that they meet with your approval.

I feel gratified with the amount of work accomplished. While there is yet much to be done, and conditions that are discouraging to be contended with, I have not given up hope that we may accomplish all that we desire, though it may take some time to reach the pinnacle of success. Better times, a kinder and more humane consideration of the poor worker by the manufacturer, contractor, and dealer, will be a helpful factor.

A part of my district, as you are aware, is largely inhabited by the very poor, who eke out an existence by making or finishing clothing for the manufacturer and dealer. The small amount they receive as compensation for their labor forces them to live cheaply.

They, in consequence, have to resort for homes to the overcrowded tenement houses, courts and alleys, where the sanitary conditions are bad, and where the people must needs crowd together to save expense. The Department has kindly considered these poor people without any desire to add to their many hardships, and has given them every opportunity to better their surroundings and workshops. Very many of them, through the efforts of my predecessor, have moved into shops that are clean and healthy, where clothing can be made with the danger of contagion very much reduced.

There are still a number of persons who presume upon the kindness of the Department, getting work without the permit, which the law exacts. I think the time has come when all such violators should be prosecuted, as they work a wrong upon those who try to observe the law by having proper shops. These violators, by having but one rent

to pay, become the unfair competitors of the law abiding, and work a wrong upon the public by giving them clothing made under unclean conditions.

During the year I detected ten places (family workers without permits), where diphtheria and scarlet fever raged. The unscrupulous contractors who took advantage of the poverty of these people, reckless of the consequences of their efforts to get work done cheaply, ought to be made examples of. Only this week I found in one house two small rooms used for living purposes by a family of ten persons. In these rooms they worked, ate and slept. The mother and older children finished knee pants for the paltry sum of 6 cents per dozen. The contractor in this case knew the law, because he had himself been chased from unclean and unhealthy places more than once. His indifference to the law and the unknown harm he may have done in spreading disease among the little loved ones of households, should be considered and he prosecuted. The law of our State does not go far enough. It should give the Department power to confiscate clothing made under such vile conditions. With the law so amended as to give this right, I believe we could compel a better observance of the law and the object sought be more quickly reached.

With these thoughts presented in an imperfect manner, and with many thanks to you for your kindness and consideration, I am,

Yours truly,

WILLIAM J. HUGHES,
2125 South Ninth Street.

EIGHTH INSPECTION DISTRICT.

THOMAS J. LAPPIN, *Inspector.*

Philadelphia, November 14, 1898.

Mr. James Campbell, Chief Factory Inspector, Harrisburg, Pa.:

Dear Sir: In accordance with your request, and custom of the Department, I beg leave to respectfully submit herewith a general summary of work done by me in the Eighth district from June 27 to October 31, 1898, inclusive, being the close of fiscal year.

I entered upon the active duties of my position, as deputy inspector June 27, 1898, under your instruction, and guidance, during which time I made two hundred and eighteen general or factory inspections, ninety-one sweat shop, three hundred and sixty-five family, and one hundred and six bake shop inspections, making a total of seven hundred and eighty inspections. Issued 418 factory, 111 sweat shop, 113 bake shop orders, of which 412 factory, 107 sweat shop, 102 bake shop orders were complied with.

During my brief but varied career have learned much heretofore unknown and never realized by me about conditions surrounding the sweat shop showing the urgent necessity for legislation even more severe than that now in force to hold in check, and educate this very undesirable class of people to a better condition of cleanliness for the safety not only of themselves but the wearers of the goods manufactured by these people.

There exists no question of doubt as to the amount of good work accomplished by the Department in this direction since the enactment of the sweat shop law approved May 5, A. D. 1897, yet with all the constant and eternal vigilance shown by the Department, and close application to duty by the inspectors thereof it requires something more to educate these people to the importance of living and working under more cleanly conditions.

To this end dealers and large contractors are the ones to hold to account. In the Eighth district where resides the poorest and most ignorant of the Russian Jews, Italians and Armenians despite my aim to correct vile and unhealthy conditions under which many live, subterfuges are adopted to escape the observation of the inspector by constantly moving, aiming to secure a family permit, then inaugurate

a sweat shop, which exists for a short time only. In my judgment to remedy this evil Deputy Inspector W. J. Hughes strikes the key note when he suggests an amendment to the sweat shop act, to confiscate, and destroy all goods found being manufactured in whole or in part under unsanitary conditions, and in violation of the law.

The United States Government has been giving work (soldiers' uniforms) to contractors many of whom, was never engaged before in clothing manufacture consequently were not familiar with laws relating thereto who in turn sweat it out to sub-contractors regardless of having any knowledge of the cleanliness surrounding the places wherein these goods are made.

Within a few weeks the superintendent of the Schuylkill Arsenal in Philadelphia has offered, and is co-operating with the Factory Department which action has brought good results, and a large number of these sub-contractors have vacated private houses and rented shops where modern improvements exist, and little or no liability of contagion.

The bake shops in general are very familiar with the laws governing the same, and with few exceptions I find prompt, ready compliance with orders issued.

In general factory inspection work from information furnished me by manufacturers, superintendents, foreman, and others a very notable increase in business interests, number of persons employed, and a prosperous period at hand is the general report.

I am pleased to report a very prompt compliance, and perfect willingness on the part of employers to receive any suggestion from the Department of Factory Inspection looking to the health and safety of their employes as attested by the four hundred and twelve compliances out of four hundred and eighteen orders issued of which 50 per cent. were guards on machinery, elevators, fire escapes, and modern lavatories.

I would attest to the courtesy and respect with which I have been received by the various manufacturers and others, and beg leave to thank Inspector William J. Hughes for his aid and kindness in assisting me in my work, through his experience I learned much. Permit me to return my thanks to you Mr. Campbell for your courtesy and kindness shown and generous advice given me.

To the various attaches of your office I return my thanks for their ready response and prompt assistance.

Yours very sincerely,

THOMAS J. LAPPIN,

Deputy Factory Inspector, Eighth District, Phila., Pa.

NINTH INSPECTION DISTRICT.

ELLWOOD W. MINSTER, *Inspector*.

Bristol, Pa., November 1, 1898.

Mr. James Campbell, Chief Factory Inspector, Harrisburg, Pa.:

Dear Sir: It gives me great pleasure to tender you my annual report for the year ending October 31, 1898, giving you a brief account of the work done in the Ninth district, comprising the counties of Pike, Monroe, Northampton, Bucks and Montgomery. Pike, Monroe and Northampton were added to my district this year, making a great deal more work, as well as throwing more responsibility on me, but I will say I found them in every particular in first class condition, which must have taken a great deal of my predecessor's time and patience, not only for the good work she left behind, but the good impression of the law and its benefits upon the manufacturers, as well as the respect they had for her, for in nearly every instance they regretted there had been a change made.

I have made in all ten hundred and twenty-two inspections and accident investigations, four hundred and eighty-one inspections that I have reported by inspection blanks which are filed in your office, besides several minor ones. I investigated four hundred and fifteen accidents, of which there were three fatal, sixty serious. The most of them were at A. & P. Roberts Company, Pencoyd Iron Works, Pencoyd, Montgomery county, who employ upwards of two thousand hands. There are only a few minors, and none under sixteen years of age. The most of those hurt were foreigners, engaged in outside labor, handling the raw material and finished product after the skilled laborers were through with it. A great many of them do not appear to know enough to get out of danger when they see it, and in consequence thereof, suffer.

I also inspected one hundred and twenty-five bake shops. The act by this time, is so well understood by the bakers that they are willing to comply with it in nearly every instance without legal proceedings.

Yours respectfully,

ELLWOOD W. MINSTER.

TENTH INSPECTION DISTRICT.

THOMAS B. SHAW, *Inspector.*

Chester, Pa., November 3, 1898.

Mr. James Campbell, Chief Factory Inspector, Harrisburg, Pa.:

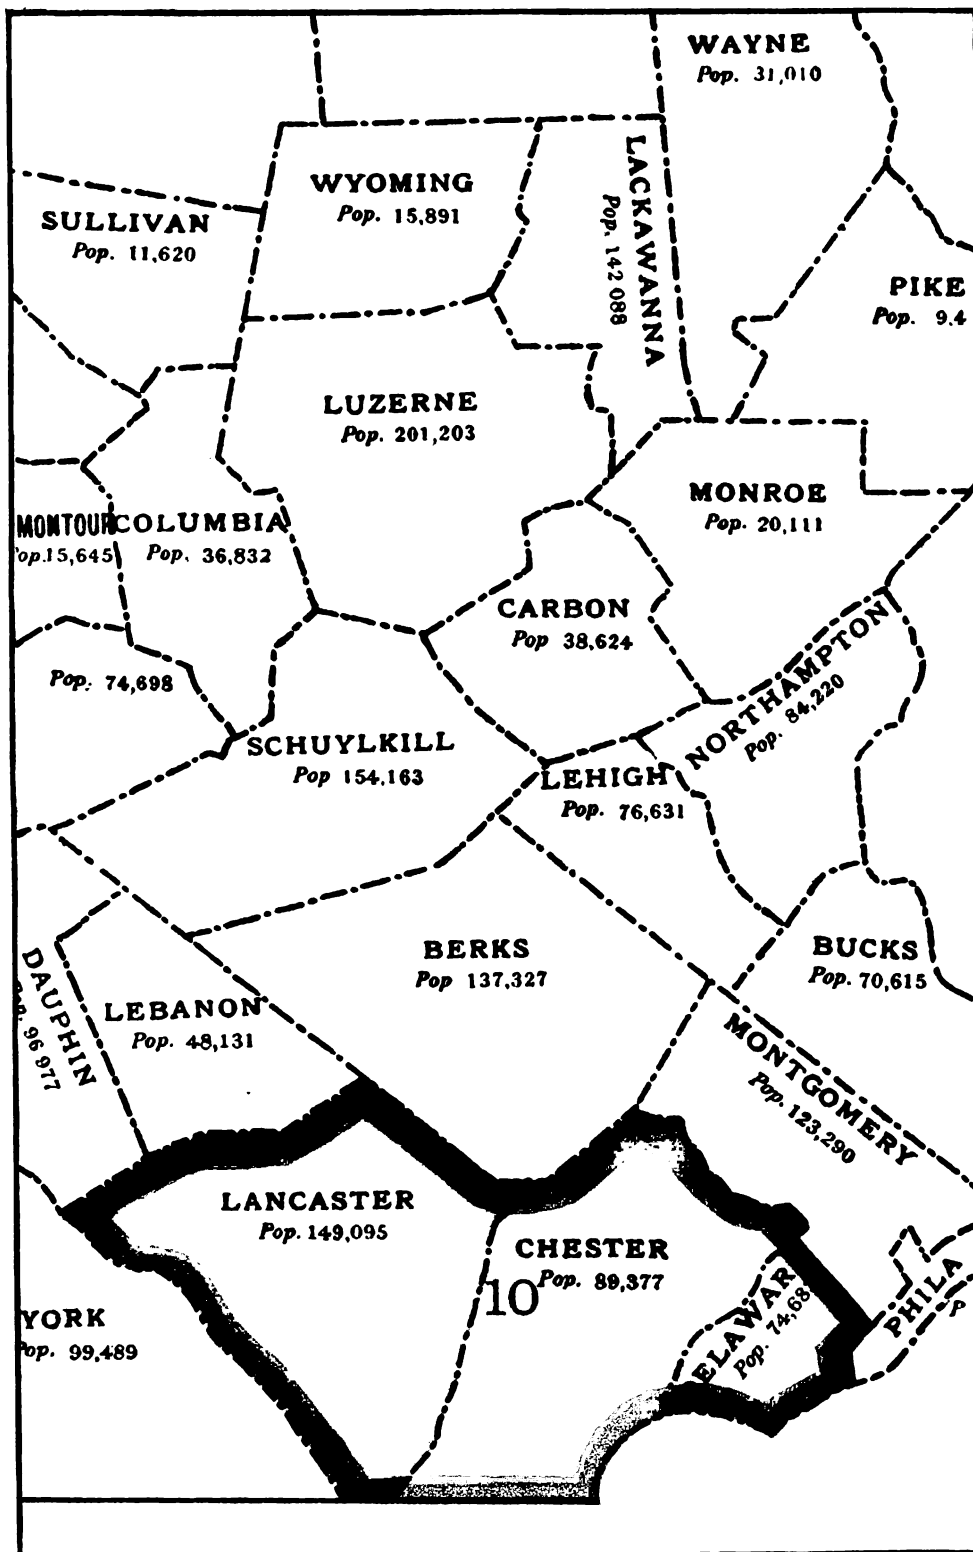

Dear Sir: I herewith submit my third annual report giving a brief account of my work for year ending October 31, 1898. Though the two previous years have seemed successful, yet this year's work has been most far reaching in its effects. I have made four hundred and forty-nine (449) inspections of factories and workshops, and three hundred and ninety (390) bakeshop inspections; also made seventy-six (76) visits; fifty-six (56) of which were to factories and workshops for the purpose of investigating accidents and complaints of violations of different sections of the law.

I have received a number of requests for permission to work over time, the reason given that they were very busy and could not fill their orders. Of course I could not grant this permission, and told them that the best way out of the difficulty was to employ more people. I had several complaints where employers were violating section one, but all ceased when they were notified to do so except one, and that firm we had to prosecute. During the year I gave four hundred and fifty-five (455) orders to factories and workshops. Four hundred and forty-three (443) of these have been complied with, and in a short time the remaining twelve orders will also be complied with.

I have visited a large number of new industries, and after explaining the law, the firm would ask me to come again in a few days, to give them time to make the necessary changes, so they could be entered in the report as all right.

I have investigated thirty-five accidents, five of which were fatal, eight serious, and twenty-two less serious.

Most of these are due to carelessness, or thoughtlessness, on the part of the employes. Working year after year among dangerous machinery, they seem to become blind to the danger. For instance, a man was working at a planer which was supplied with a guard, he considered the guard was in his way, and took it off. In planing a piece of lumber his hand slipped, his thumb caught in the machine and cut it off to the first joint. I also visited twenty bakeshops, some of which I found closed, and other visits were for the purpose of seeing if improvements which I had ordered had been carried out.

I gave two hundred and twenty-five (225) orders to bake shops during the year, and have two hundred and twenty-four (224) compliances. The remaining order was given to a new bakery so recently that I have not had time to find out whether the work has been done or not.

At the time of sending my last year's report I had not completed my first round of the bake shops in my district. On my second trip I was very much pleased to see the great improvement in all the bake shops.

The law, in my opinion, is a good one, and if it has not accomplished anything else it has made a vast improvement in the cleanliness of the places where the staff of life is produced.

In conclusion I desire to thank you for your kindness and wise counsel during the past year.

Very truly yours,
THOMAS B. SHAW,
Deputy Inspector, Tenth District.

ELEVENTH INSPECTION DISTRICT.

ANNIE E. LEISENRING, *Inspector.*

Mr. James Campbell, Chief Factory Inspector:

Allentown, Pa., October 31, 1898.

Dear Sir: In compliance with your request, I have the honor to submit to you a brief report of the work as it presents itself in the eleventh district. I deem it unnecessary to go into detail, as full reports of every establishment inspected or visited have been forwarded every week. The factory and mercantile inspections number 773, bake shops 217, with upward of 150 official visits. The orders given are nearly 600. With very few exceptions, they have all been complied with.

The prediction which I ventured last year, that extending the benefit of the 60 hour per week limit to all women would be productive of good, has been verified, although in certain industries that have only a short season, regulated by the caprice of fashion, and where only experienced adult women can be employed, the manufacturers have been put to some inconvenience. Sections 2, 3, and 8, as usual, furnish their full quota of violators, and very often prove the most difficult ones to overcome. In one city in my district, where the school board, through an efficient attendance officer, is stringent in the enforcement of the school laws, we have succeeded in taking a number of children out of the factories, who were under the legal age, yet in every case was an affidavit on file stating they were thirteen years old.

During the year I found five children (all boys) who were unable to read or write the English language. Of these, one has reached the age of sixteen years, one has removed from the district and the other three are attending an evening school. After careful investigation into each case, I found that if dismissed from the work shop, two of them would at once be started on the road to peddle matches, etc., and the third would be continually playing hide and seek with the truant officer. All three, I find, however are regular in their attendance at the evening school.

Section 8 is, in my opinion, of most vital importance, and the placing of all industries, regardless of the number of employes, under the care of the Factory Inspector, has opened the doors of some places

where it was high time that some relief should be given. In a number of small industries where only one or two girls are employed, while I knew full well the condition of affairs from former visits, yet until the elimination of former section 4 of the factory act, I was obliged to report as "not amenable." The condition of the sanitary appointments in some of these were found to be such as to unfit them for description. In several of these, exceptions were taken to my orders, under the plea that "only so few are employed," and the expense incurred would be unnecessary, but I am pleased to be able to report that in each case I succeeded in securing the changes.

A shocking accident occurred in one of the best equipped and regulated factories in this district, occasioned by a young girl wearing her hair in long braids which were caught in the shafting, and her life saved only by a miracle. Her face and scalp were torn in a fearful manner, badly disfiguring her for life. This is an evil which the utmost care and diligence of both manufacturer and inspector are required to keep in check, since the girls will, in defiance of all warnings or remonstrance, continue to indulge in this most dangerous practice. In one instance I was told by a young girl: "It is none of your business how I wear my hair."

Less difficulty is encountered in securing guards to machinery than in former years, although the deadly set screw is still in evidence.

Of the eight fire escape orders, six have been erected, and the contracts for the remaining two have been awarded.

It is difficult at times to convince the owner of a boiler in a small plant, not in operation continually, that it is necessary for him to give the proper attention, yet one such found his boiler, upon inspection, in such a state that it was beyond repair.

An evil which ought to be corrected, is the employment of men, or very often, boys who are totally inexperienced and ignorant of the duties required of an engineer. It would be well if the amount of pressure a boiler is gauged for were required to be posted in a boiler house. I have asked that question and been told by those in charge: "I do not know."

The sweating evil, in its literal sense, is not established here, but the family work shop on the rear of the lot, operated for the most part, by Russians who have come into the country from the larger cities, is putting in an appearance, and will want attention.

With a very exceptions, the bakeries in the district are in excellent condition. Two have been closed, finding it better to do so than make necessary changes.

The idea which formerly prevailed, that a factory inspector was an intruder, is fast disappearing, and frequently when changes are made, or new plants erected, the plans are submitted for approval or suggestions.

The industries in this district have been working more regularly than for a long time, and at present, prospects for a continuance, are good.

I would tender my thanks to all who have in any way rendered me assistance. I have met with uniform kindness and courtesy in my work during the year. The clerical force in the office I would thank for prompt attention to all correspondence.

The encouragement and consideration, as well as the confidence placed in me by you, I kindly appreciate, and hope by close application to the work, to merit a continuance of them.

With the hope that the coming year may be a successful one in the work of this Department, I am,

Respectfully,
ANNIE E. LEISENRING,
Deputy Factory Inspector.

TWELFTH INSPECTION DISTRICT.

JOHN K. ROBISON, *Inspector*.

Mifflintown, Pa., November 14, 1898.

Mr. James Campbell, Chief Factory Inspector, Harrisburg, Pa.:

Dear Sir: In accordance with your orders, I respectfully submit the following report of my inspection duties for the year ending October 31, 1898.

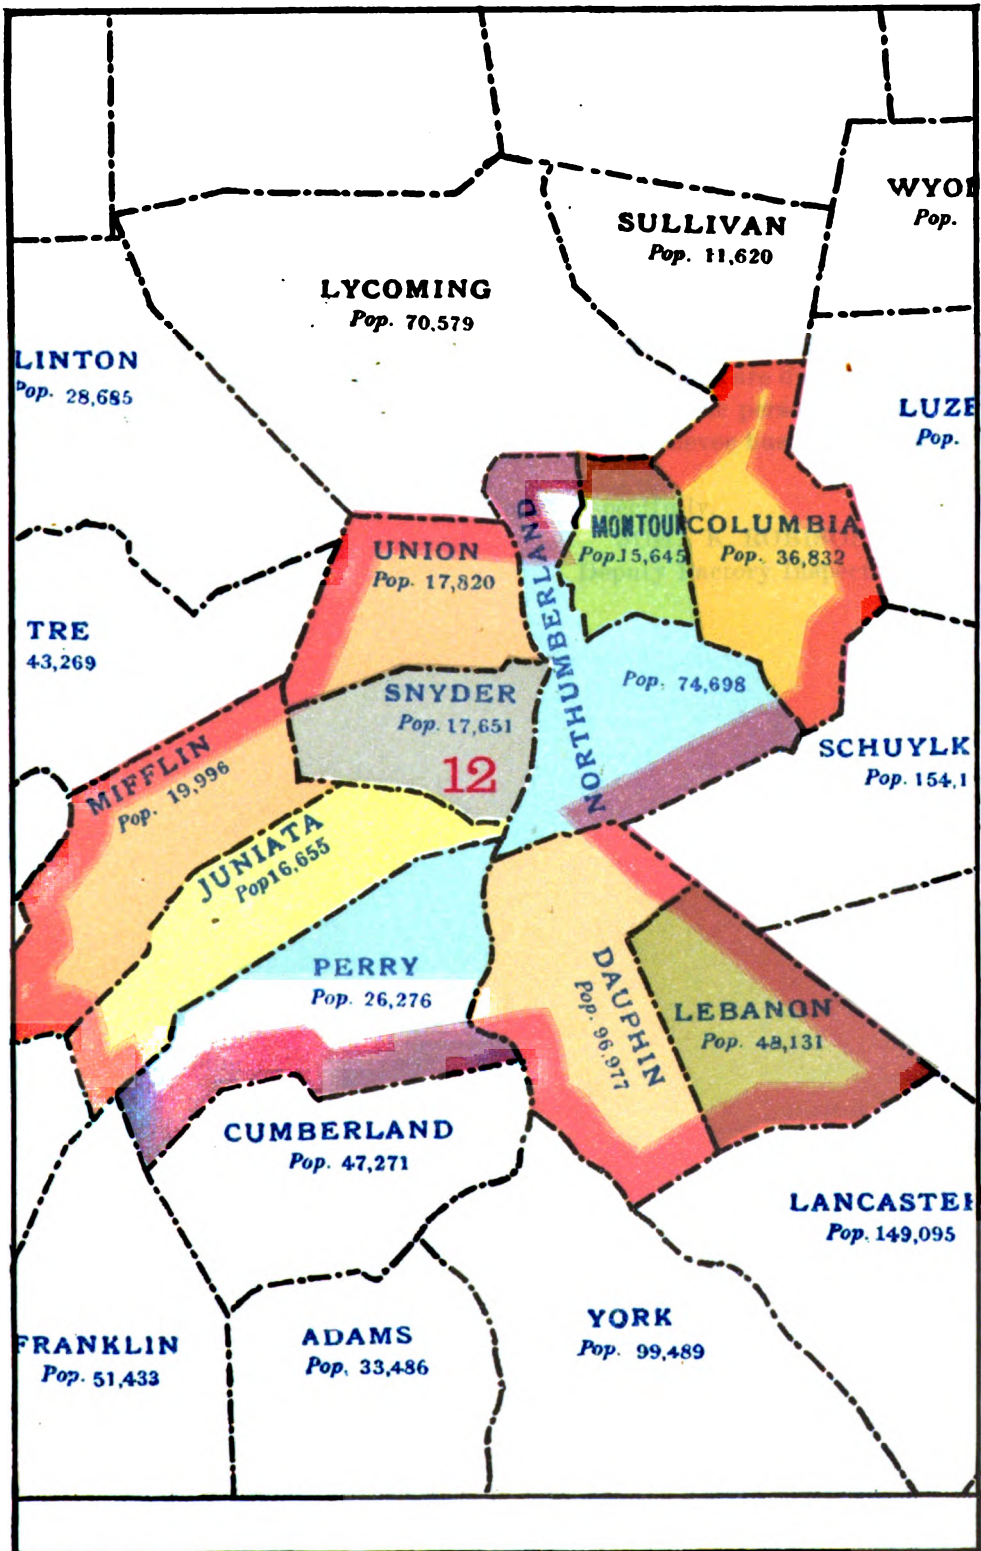

My district comprises the counties of Juniata, Mifflin, Snyder, Union, Northumberland, Montour, Columbia, Perry, Dauphin and Lebanon, which embrace a large territory and a great many diversified industries, ranging from great iron works and steel works to small works where novelties are manufactured; the large works giving employment to thousands of workmen, and the smaller only employing a few hands.

I have made 600 regular inspections, and visited the various industrial establishments 97 times. I gave 72 orders for regulating and guarding machinery, erecting fire escapes and making new sanitary arrangements, 62 of which have been complied with, which shows that the operators desire to comply with the law. The state of affairs in the establishments under my supervision, is improving every day, and employers are doing everything possible for the comfort and convenience of their working people.

I note a great increase in new establishments, and the number of employes has almost doubled under the beneficial provision of the new tariff, and I am glad to be able to report that the new work shops and factories that have been built lately, or which are in process of erection, are equipped with the latest devices for guarding machinery, and also the latest sanitary improvements.

I am sorry to report that there are still a great many fatal or serious accidents in the large establishments, which I carefully investigated, and found that in too many cases it was the old story of familiarity breeding contempt, and that the greater number of such accidents were caused by the carelessness of the victims themselves; some cases, of course, were unavoidable.

There seems to be the best of feeling between employers and employed. Payments are regular, and are weekly or semi-monthly, and in cash. Some of the large establishments pay monthly.

In regard to bakeries, I have to report that during the last year I made 21 inspections, 238 visits, issued 76 permits and issued 13 orders, and I find a great improvement in their condition since they have been included in the inspections. I am gratified to report that nearly all the bakeries in the district are being operated in accordance with the law. Only two bakeries in the district use machinery; in all the others, hand labor is used. There are no sweat shops in my district.

In conclusion I would state that I have been treated with uniform courtesy and kindness by the operators and managers of the different establishments, also by the employes, and my thanks are due to them.

I also desire to express my thanks to you and the persons of your office for the courteous treatment received whenever business called me there.

Yours respectfully,

JOHN K. ROBISON,
Deputy Factory Inspector.

THIRTEENTH INSPECTION DISTRICT.

EARL W. BISHOP, *Inspector.*

Dunmore, Pa., November 1, 1898.

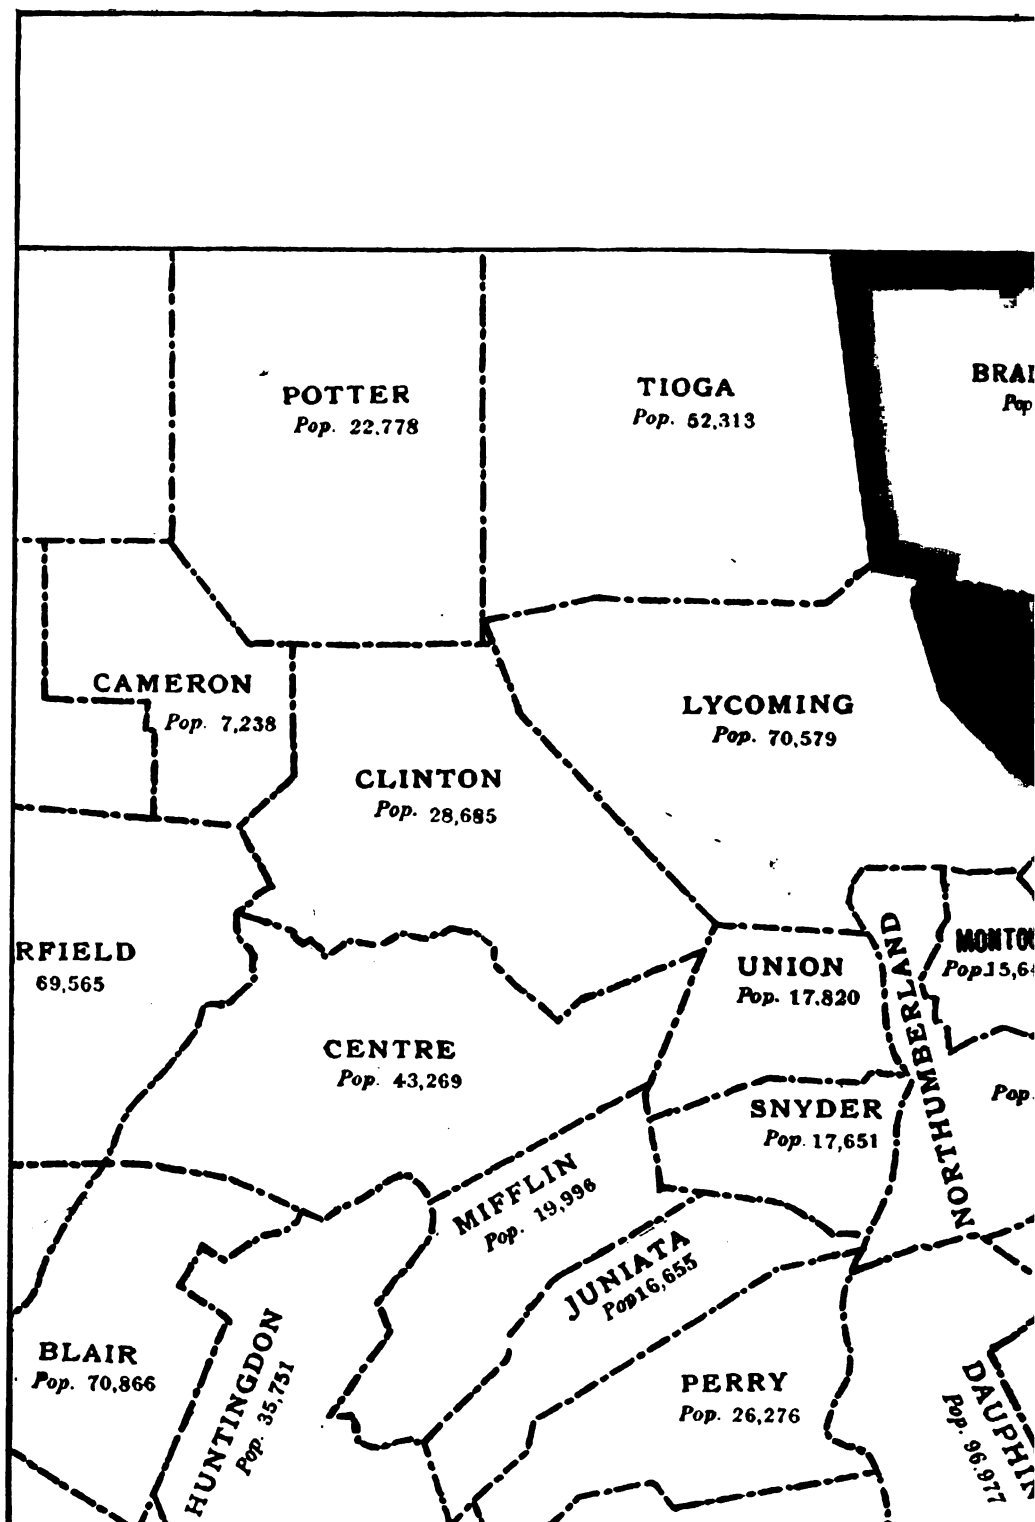

Mr. James Campbell, Chief Inspector of Factories, Harrisburg, Pa.:

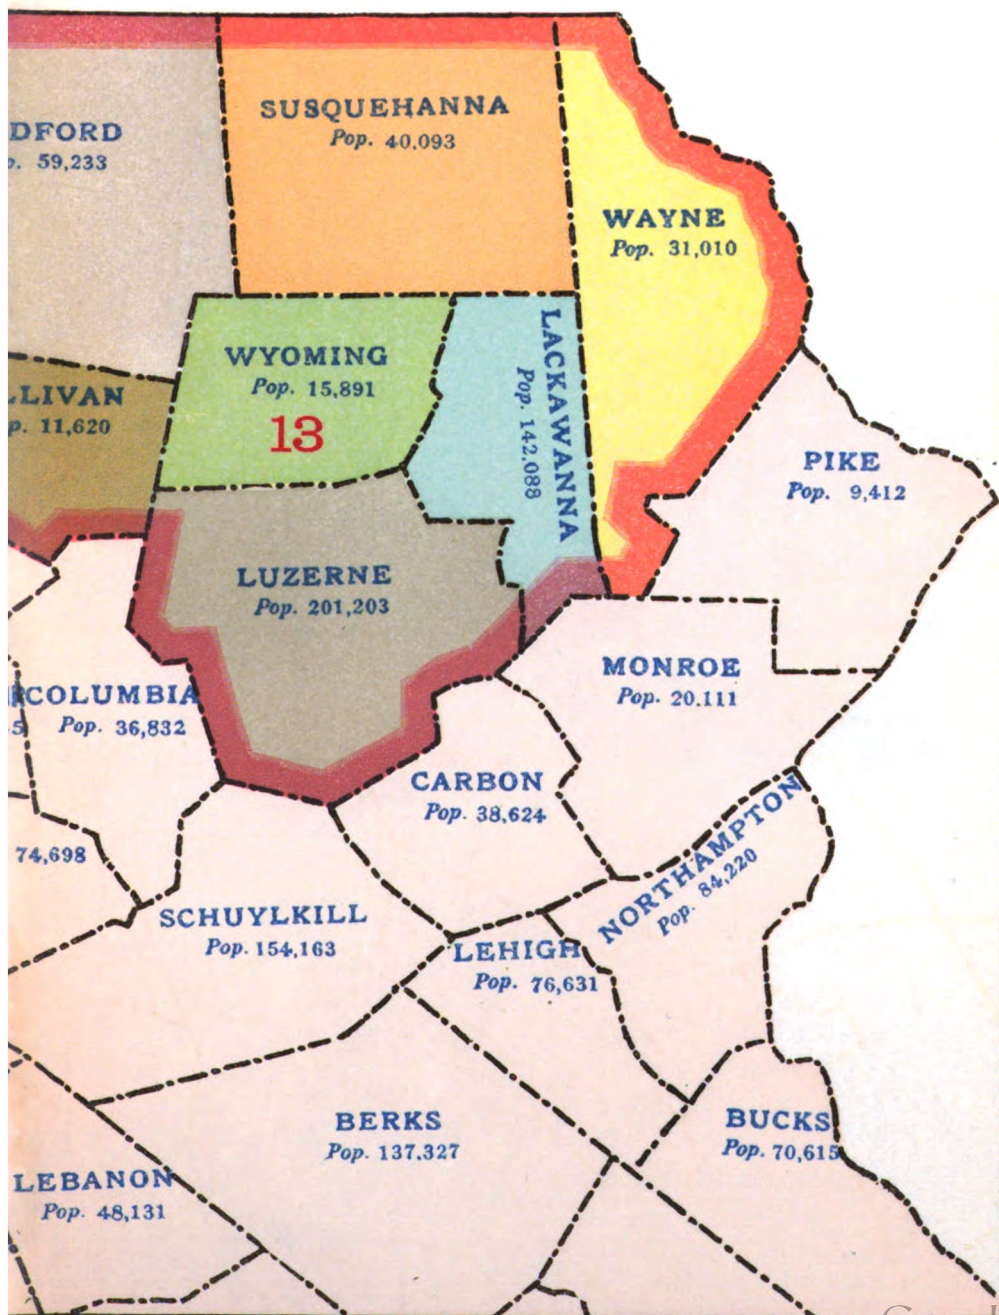

Dear Sir: As required in former years, I submit to you an account of my stewardship for the year beginning November 1, 1897, and closing October 31, 1898.

I have made eleven hundred and twenty-five regular inspections. This does not include visits nor investigations of accidents, and as we must do our clerical work on Saturdays, we can really work only five days a week. Considering the time it takes in going from and returning to our homes, it is an extraordinary good average, being over four a day. Of course this would be impossible in every district, and I could not have done so well were it not for a beneficent Providence vouchsafing to myself and family health and vigor. I have given over seven hundred orders of various kinds, such as erecting fire escapes, providing automatic gates, traps or doors at elevator ways, guadring belts and gearing and other machinery. I found about one hundred and fifty boilers in my district with no positive knowledge as to when they were last inspected, some of them actually having no attention for seven years and longer. I have issued over one hundred orders relative to closets, wash rooms, etc., also over one hundred orders to comply with section 2 by providing certificates, etc., for children under sixteen years of age, and since the law went into effect, January 1, 1898, requiring all children under sixteen years of age to be able to read and write the English language, I have found and ordered suspended, until qualified, eighteen persons.

Section 4, requiring seats for girls in our factories and mercantile establishments, is being rigidly enforced in my district. One hundred and thirty-six firms have been given written orders to comply with this section. One hundred miscellaneous orders have been given.

The act, relative to bakeries has had a good effect upon those who manufacture flour and meal food products. This season I visited them for the second time since the act was approved and, with a few exceptions, found them much improved. Water closets, ash pits, etc.,

set apart from bake rooms; cats and dogs not allowed, as formerly, to sleep in the bake room upon the flour or in the mixing bins. And where I found those employed who I had reason to believe were affected with lung trouble, or with scrofulous diseases, or communicable skin affections, I required them to go before the board of health, and if found diseased, to cease work until their physician pronounced them cured.

It seems to me wise and proper for deputy factory inspectors to co-operate with health officers, building inspectors, and the fire department in all cities.

When the General Assembly is convened, will you again call their attention to the discrepancy of the factory laws and the mining laws of this Commonwealth, as you know the factory laws forbid children under thirteen years of age to work in any factory or mercantile establishment? This is right, providing the age limit was the same around the coal breakers, but the mining laws allow them to work at twelve years of age, and this is radically wrong. See how unjust it is to say to boys under thirteen years of age, found at work in a nice, clean, well managed mercantile establishment: "you cannot work here; the law forbids it until you are thirteen years of age." He is discharged or suspended, and in many cases, seeks and obtains employment as a slate picker in our breakers where it is black and dirty and ten times more hazardous and demoralizing.

I sincerely hope that my efforts to fulfill the requirements of the Factory Department, meet with your approbation.

Thanking you for your kindness and extreme courtesy throughout the year, I am,

Very respectfully yours,

EARL W. BISHOP,
Deputy Factory Inspector.

FOURTEENTH INSPECTION DISTRICT.

W. S. MULLIN, *Inspector*.

Hyndman, Pa., November 12, 1898.

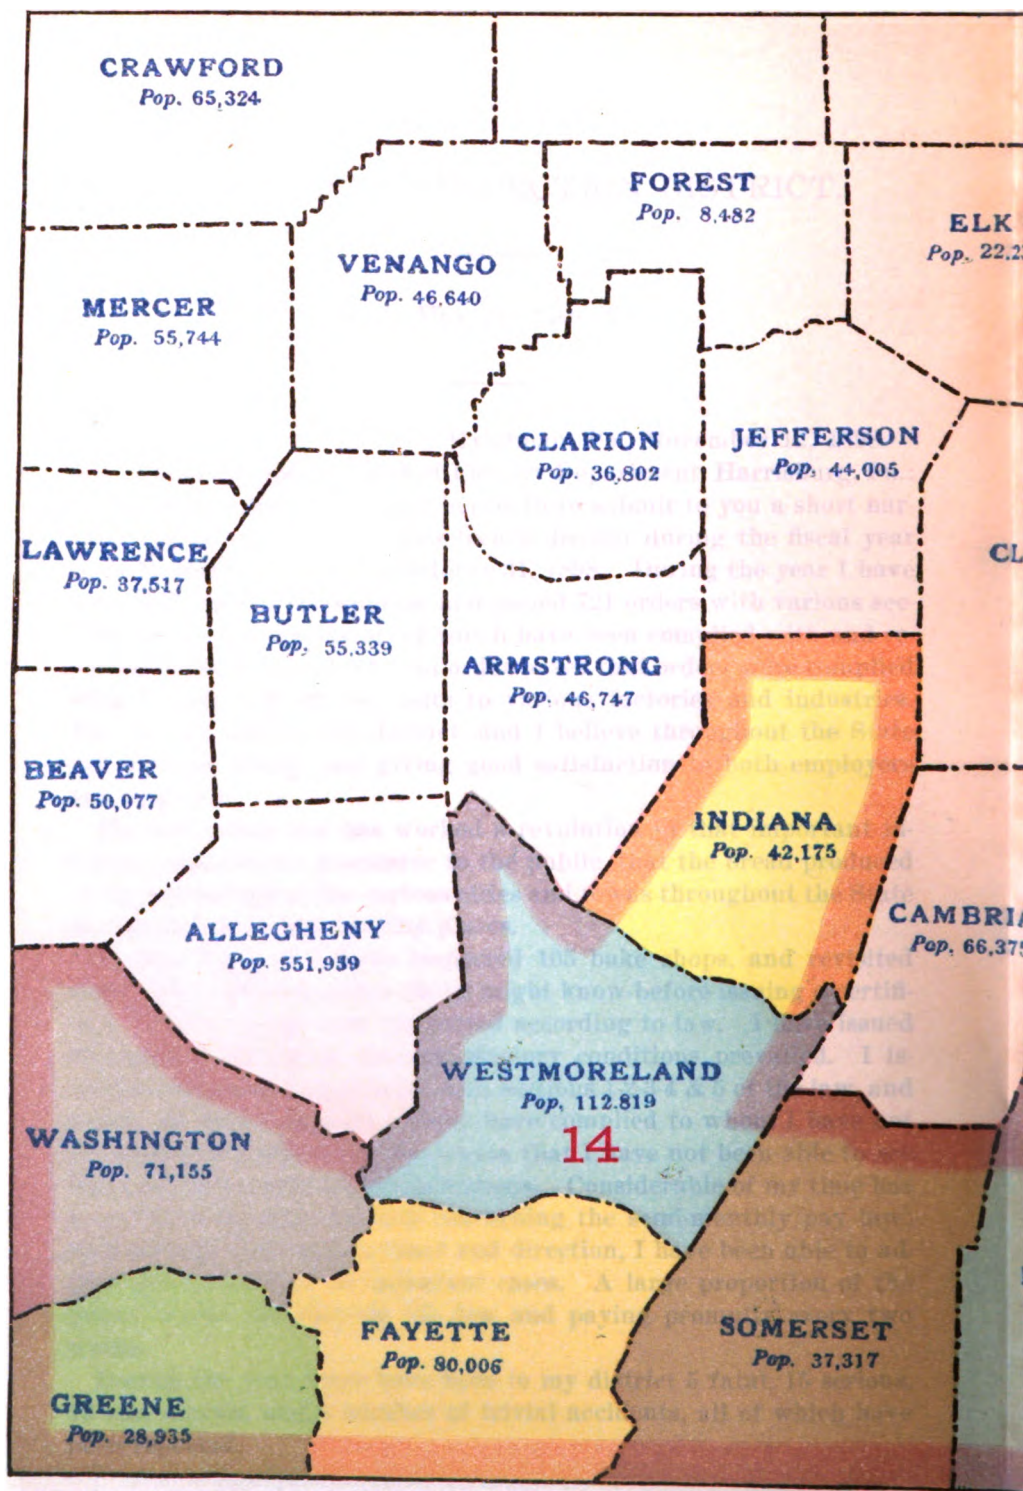

Hon. James Campbell, Chief of Factory Department, Harrisburg, Pa.:

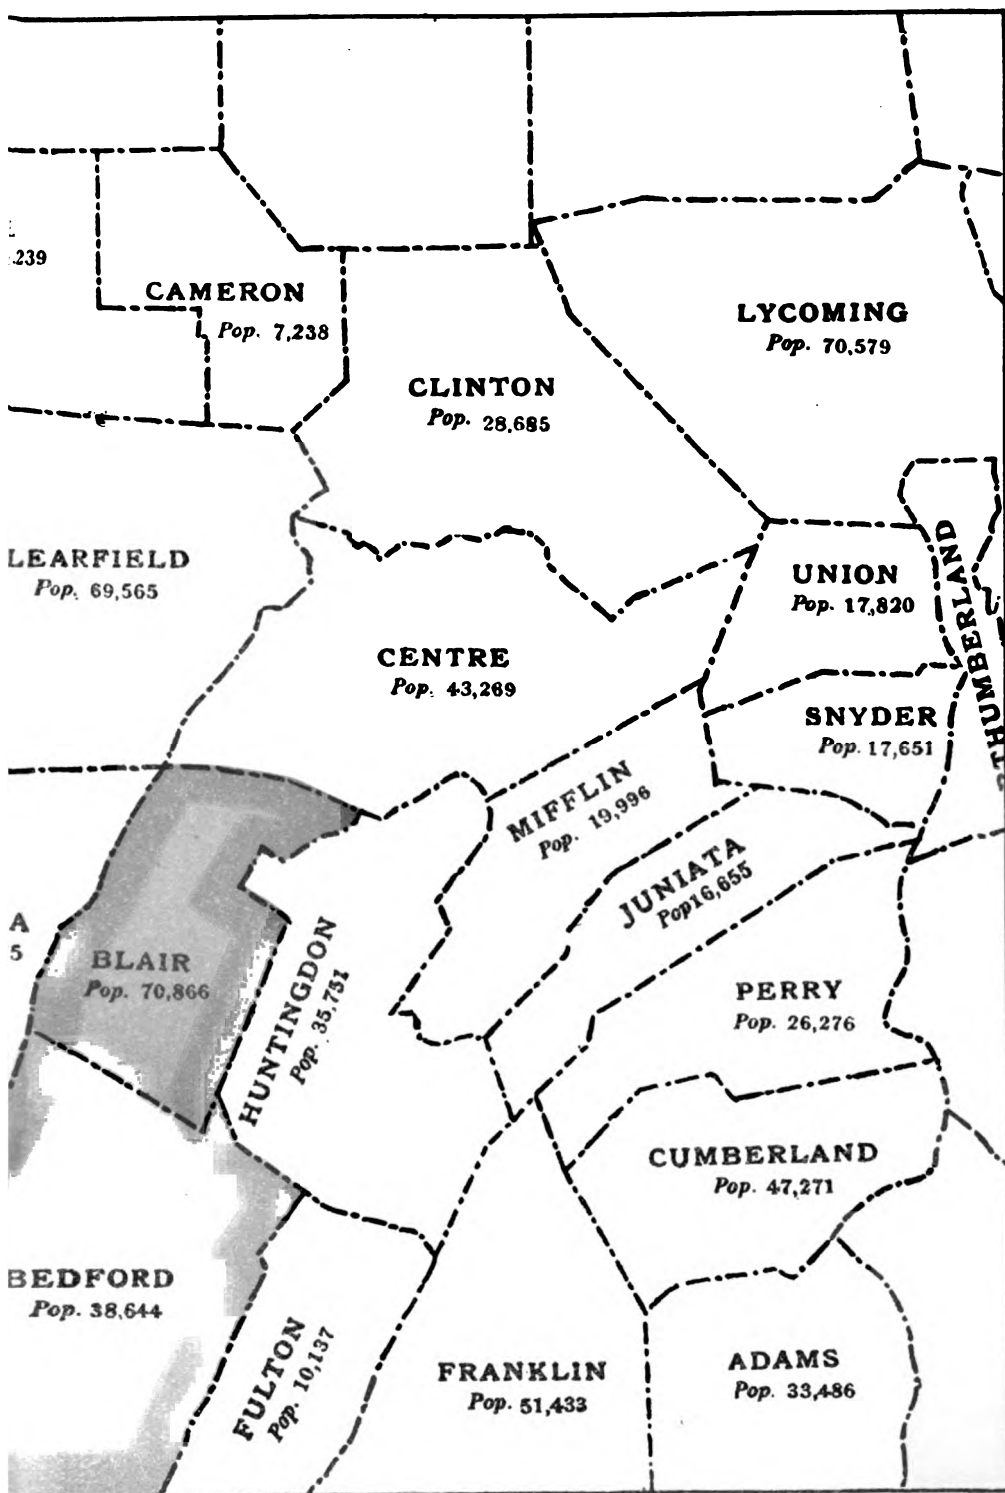

Dear Sir: I have the honor herewith to submit to you a short narrative of my work in the Fourteenth district during the fiscal year from November 1, 1897, to October 31, 1898. During the year I have made 407 regular inspections, and issued 721 orders with various sections of the law, nearly all of which have been complied with and reported to the Department. In order to see that orders were complied with I made 118 official visits to various factories and industries. The factory laws in my district, and I believe throughout the State are working nicely, and giving good satisfaction to both employers and employes.

The bake shop law has worked a revolution in that important industry, and given a guarantee to the public, that the bread produced in the bake shops of the various cities and towns throughout the State is made in clean and healthy places.

During the year I have inspected 105 bake shops, and revisited nearly all of them in order that I might know before issuing a certificate that the shops were conducted according to law. I have issued 70 permits, certifying that satisfactory conditions prevailed. I issued 91 orders for compliance with sections 1-2-3-4 & 5 of the law, and nearly all have complied. Some have complied to whom I have not yet issued certificates for the reason that I have not been able to see for myself the condition of their shops. Considerable of my time has been taken up with matters concerning the semi-monthly pay law; and through your wise counsel and direction, I have been able to adjust quite a number of important cases. A large proportion of the public works are obeying the law and paying promptly every two weeks.

During the year there have been in my district 5 fatal, 15 serious, 16 less serious, and a number of trivial accidents, all of which have been reported.

In conclusion I wish to state that the mechanics and laborers in the mills and factories throughout our great State, feel and appreciate the protection given them by the State, in throwing around them the strong arm of the law, for the protection of their health, life and limb; and the employers almost universally accept the law as a good thing.

Thanking you for your wise counsel and direction, and for kind and generous treatment from you and from the office, I am,

Obediently yours,

W. S. MULLIN,
Deputy Factory Inspector.

FIFTEENTH INSPECTION DISTRICT.

T. A. BRADLEY, *Inspector.*

Allegheny, Pa., October 31, 1898.

Mr. James Campbell, Chief Factory Inspector, Harrisburg, Pa.:

Dear Sir: I herewith submit a brief report of the work done in the Fifteenth district for the year just closed.

During the year I have made 786 inspections, as follows: 638 factory and work shop, 104 bake shop, and 44 sweat shop inspections, and made 27 official visits; gave 333 orders, 312 of these were issued to factory, workshop and mercantile house owners. Twelve were issued to sweat shop proprietors and 7 to owners of bake shops. Of the 333 orders issued, a little more than one-half are at present reported complied with; 125 of these have been issued during the last two months, and no doubt will be complied with by the time that the limit of the order expires. I feel safe in saying that four-fifths of the orders issued will be complied with during the next sixty days. When we take into consideration the fact that these orders were nearly all written ones, and pertaining to important matters, it speaks volumes, and gives a guarantee of better results in the future. A large number of minor orders, such as posting laws, filing certificates, posting lists of children's names, time cards, etc., were given and promptly complied with and for this reason not counted in the total.

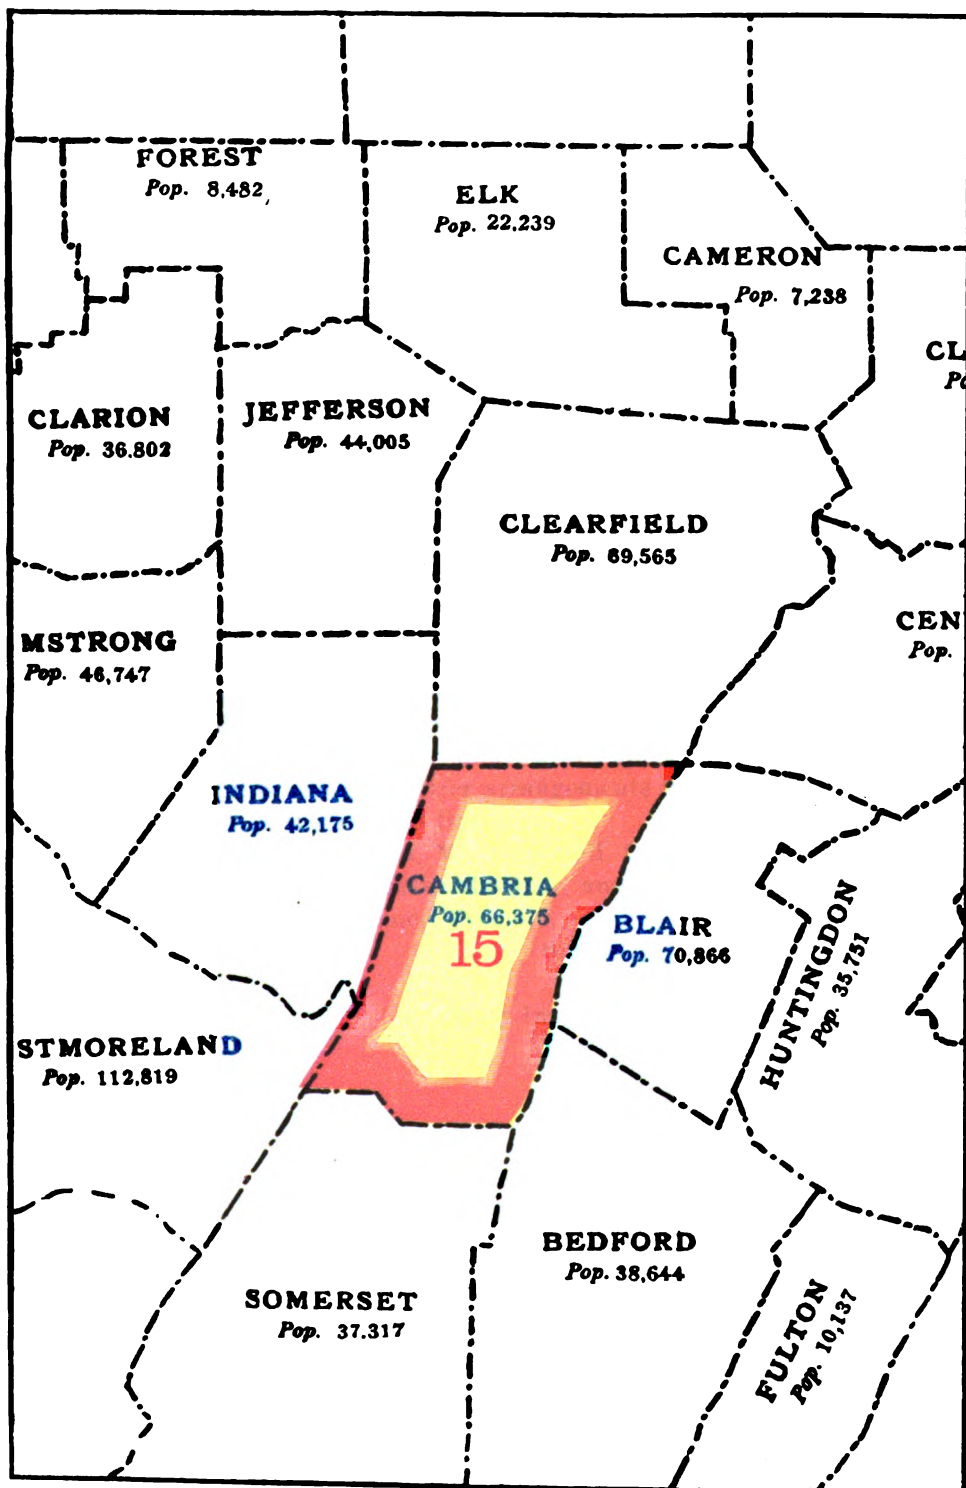

As per your instructions, I have, since the 5th of August, 1898, assisted Miss Stuchfield in the work in her district. The inspections made during that time are included in the above.

During the year, many things have been encountered which, to correct, would require changes in the factory law, and in some instances, radical changes.

I briefly mention the ones I deem most important:

Section 1. There should be added to this section: "Said hours shall be worked between 7 a. m. and 8 p. m."

Again I call attention to the fact that the Factory Inspector and his deputies should have full power to make an official investigation of all serious or fatal accidents. The factory law requires that they shall be reported, but does not give power to make an investigation.

FIFTEENTH DISTRICT--T. A. BRADLEY, INSPECTOR.

The owners or agents may, upon inquiry, of the deputy, use their pleasure in giving information. But if the law was amended, giving the inspector and his deputies power to administer oaths to witnesses, they would be more liable to get at the truth, and could fix the responsibility where it properly belonged. I am pleased, however, that in this district, the number of accidents has decreased. There are yet too many, and I trust that with care upon the part of the employes, and the proper observance of the law, by the employers, that we will some day see them reduced to a minimum.

The fire escape law should be promptly amended so as to include mercantile establishments.

The matter of enforcing the semi-monthly pay law should, I believe, be divided between the Factory Department and the Bureau of Mines and Mining. I think it fitting and proper that the Factory Department should enforce the semi-monthly pay law in all establishments over which the Department has jurisdiction, and that it should be relieved of enforcing the law about the mines where the Department has no jurisdiction except in this matter.

It is gratifying that during the past year, nearly all the factories and mills have been working up to the limit. Indeed, I have had one or two complaints of working over time, and upon investigation, found one of the complaints true. I think we will not have any trouble in the future on this score, as better arrangements have been made for doing the work in the allotted time.

With many thanks to you, Mr. Campbell, for your kindness and courtesies extended throughout the year, and to the office force for their patience and forbearance, I remain,

Sincerely yours,

T. A. BRADLEY,

Deputy Inspector, Fifteenth District.

SIXTEENTH INSPECTION DISTRICT.

A. T. JAMES, *Inspector.*

Williamsport, Pa., October 31, 1898.

Mr. James Campbell, Chief Factory Inspector:

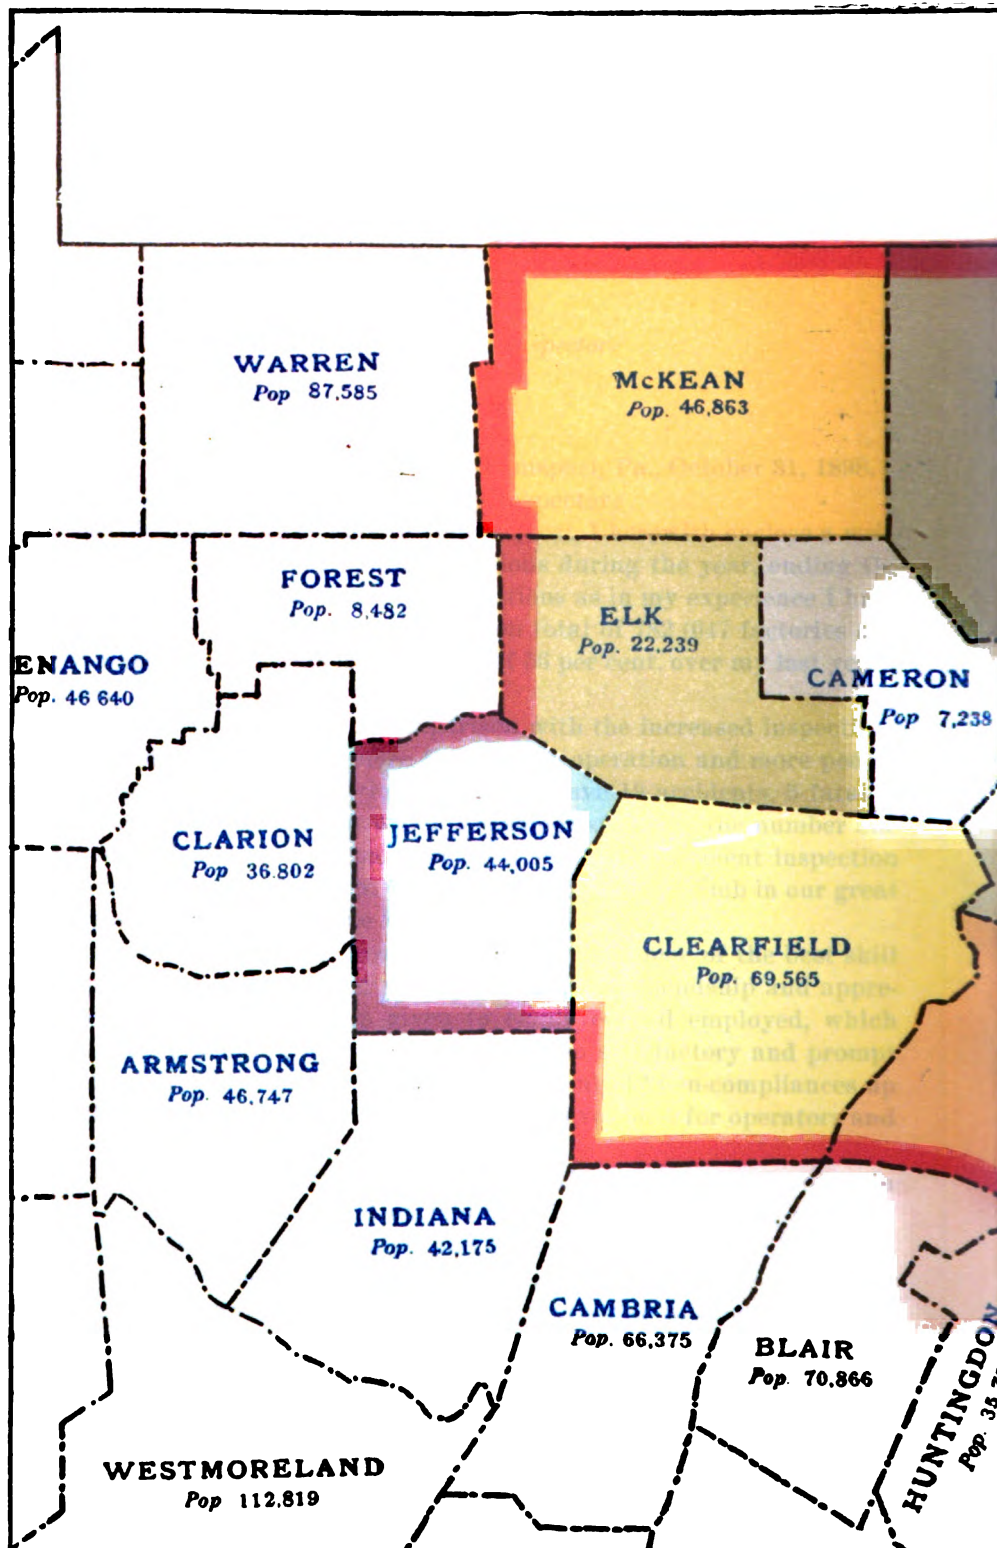

My Dear Sir: Agreeably to your request, I herewith enclose a written statement of work and observations during the year, ending October 31, 1898, and such other suggestions as in my experience I have come in contact with in my inspection total of 782 (647 factories and 135 bake shops.) This is a net gain of 56 per cent. over my last year's work.

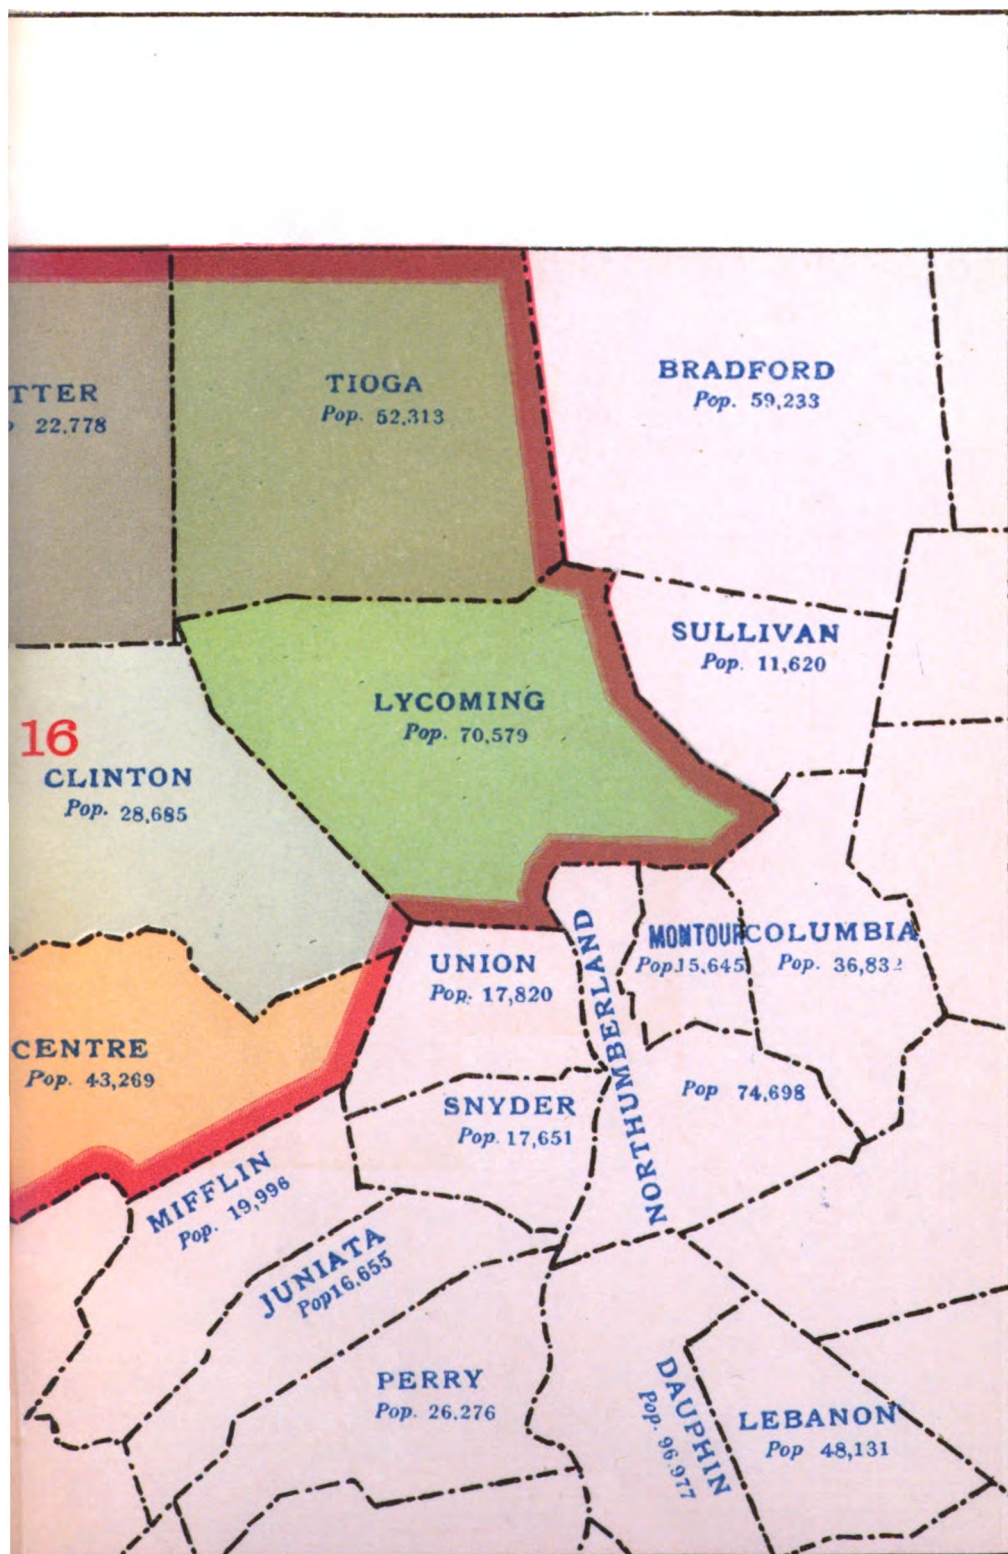

I find more accidents in comparison with the increased inspections over last year, as I find more factories in operation and more people employed. On investigation, I notice I have 19 accidents, 5 fatal, 5 serious and 9 less serious which I consider small for the number employed. This proves to me that the Factory Department inspection has become a true factor in the protection of life and limb in our great industries in the Keystone State.

In making my visits, I come in contact with some of the best skill employed, and am treated with that degree of friendship and appreciation for the protection given to employer and employed, which is highly gratifying. I find compliances so satisfactory and prompt that in my whole list of inspections I find only 12 non-compliances up to the end of my year's work, which speaks volumes for operators and our Department work.

I come in contact with so many firms who employ steam power in manufacturing plants, and on investigating their source of power, I am soon in front of the boiler and inquire how long since it had an internal inspection, and to my surprise in many cases, the answer is: "four or five years." In all such cases, I order an internal inspection at once.

In regard to the help employed at engines, some have had little or no experience. I found one case in which a boy, only 14 years old who had never worked as an apprentice or had any experience in a machine shop in charge of an engine.

.....

:

I respectfully recommend the Legislature to pass such a law as is in force in Massachusetts, the title of which is "Inspection of Boilers and Examination of Engineers and Firemen."

I wish to make this report brief and to note in conclusion the marked improvements in bake shops. The change in the sanitary condition is noticeable, and we have not only the praise of the baker, but the patron, for the work done in this particular line of industries which, I assure you, was a much needed reform.

I am pleased to state that it has not been necessary to bring suit for non-compliance this year, as all such orders and compliances have been made with promptness and to my entire satisfaction.

Thanking you for valuable advice and consideration during the year, I am,

Yours truly,

A. T. JAMES,
Deputy Factory Inspector, Sixteenth District.

ALLEGHENY COUNTY

EIGHTEENTH INSPECTION DISTRICT.

GEORGE I. RUDOLPH, *Inspector.*

Allegheny City, November 14, 1898.

Mr. James Campbell, Factory Inspector, Harrisburg, Pa.:

Dear Sir: In compliance with your order I respectfully submit the following narrative report for the past year:

The amended factory act of 1897, seems to have worked with the greatest satisfaction, but there should be more deputies. Our great manufacturing State of Pennsylvania should not let the Factory Inspector's Department want for force enough to thoroughly inspect every work shop or factory, to see that all machinery is properly guarded, and the factory act complied with to the letter. In one large mill I found ten machines, the gearing running in, making them very dangerous. On my previous visit they were running out, but the belt on being crossed reversed the machines. In a hurried inspection an inspector might miss seeing cases of this kind.

My relations with employer and employe have been very agreeable. My orders have been cheerfully complied with, and the "factory act" often very much praised. With the educational part of the act I have had no trouble. The number of accidents in this district is small in proportion to the number of employes, and in every case unavoidable or through the carelessness of the person hurt.

I have made 795 factory inspections, 202 bake shop inspections, 223 visits, and given 1,055 orders, all of which were complied with excepting 14.

I thank you for past kindness.

Yours,
GEORGE I. RUDOLPH,
Deputy Inspector, Eighteenth District.

NINETEENTH INSPECTION DISTRICT.

M. N. BAKER, *Inspector.*

Corry, Pa., November, 1898.

Mr. James Campbell, Chief Inspector:

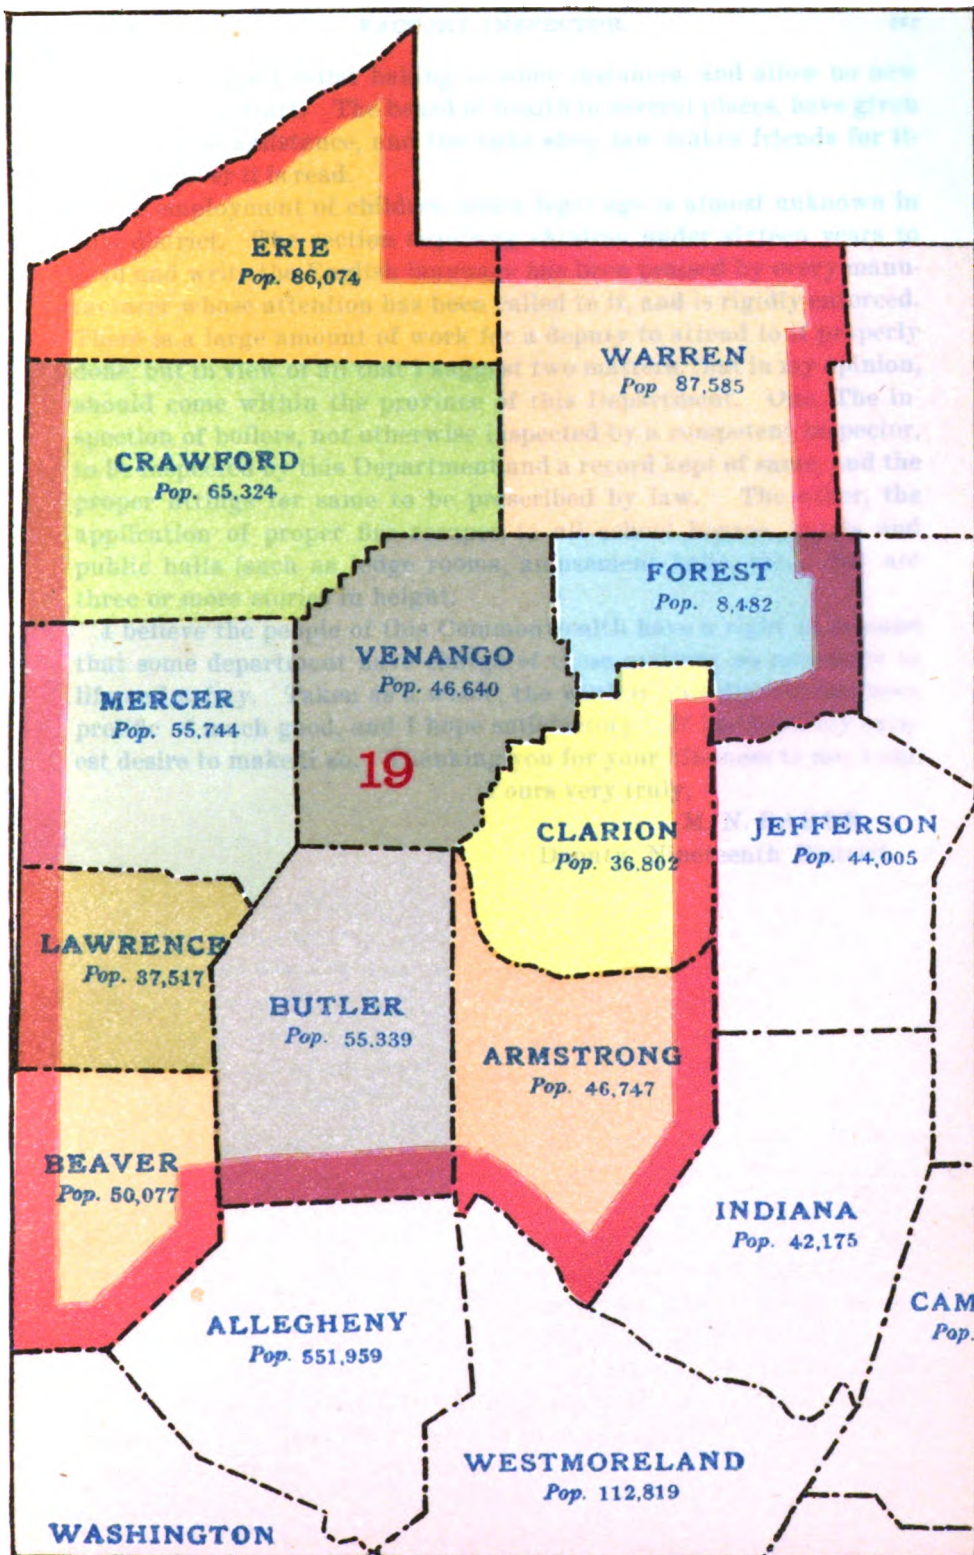

My Dear Sir: In accordance with the usual custom of this Department I beg to briefly summarize the work of the Nineteenth district for the year just passed.

The great increase of business throughout the manufacturing districts of Pennsylvania, this year has made much more careful work necessary on the part of the inspector, with this increase of business has naturally come the establishment of new plants, and the very large introduction of new machinery in those already in operation, and frequent visits have been made by your deputy to examine said machinery with reference to its safety.

It is the very rare exception now when the presence of the inspector is not desired as soon as new machinery is ready for operation. Manufacturers, workmen and even accident insurance companies want proper inspection made and the liability to accident reduced to the minimum. Much care has been given to the examination of machinery, and my effort has been to have safeguards applied where there is a possibility of accident. It is of course impossible to make the measure of safety absolute, but the accidents from this district show that in ninety per cent. of accidents, that with proper and reasonable care on the part of operatives, no accident would have occurred. Operatives on wood working machinery in this district, show more carelessness and are more liable to remove safeguards from jointers, band saws, shapers, etc., than any other class of mechanics.

They will soon become used to the machinery with safeguard applied and then see its value.

Orders have been well complied with. The bake shop law has been carefully and strictly applied, and I can say to the patrons of bakeries in the Nineteenth district that they are getting breadstuffs made under much better sanitary conditions than ever before.

22

I have stopped cellar baking in some instances, and allow no new cellar shop to start. The board of health in several places, have given me valuable assistance, and the bake shop law makes friends for itself wherever it is read.

The employment of children under legal age is almost unknown in this district. The section requiring children under sixteen years to read and write the English language has been praised by every manufacturer whose attention has been called to it, and is rigidly enforced. There is a large amount of work for a deputy to attend to if properly done, but in view of all that I suggest two matters, that in my opinion, should come within the province of this Department. One, The inspection of boilers, not otherwise inspected by a competent inspector, to be inspected by this Department and a record kept of same, and the proper fittings for same to be prescribed by law. The other, the application of proper fire escapes to all school houses, hotels and public halls (such as lodge rooms, amusement halls, etc.), that are three or more stories in height.

I believe the people of this Commonwealth have a right to demand that some department have charge of these matters, so necessary to life and safety. Taken as a whole, the work in this district has been prolific of much good, and I hope satisfactory. It has been my earnest desire to make it so. Thanking you for your kindness to me, I am,

Yours very truly,

M. N. BAKER,

Deputy, Nineteenth District.

TWENTIETH INSPECTION DISTRICT.

MARY WAGNER, *Inspector.*

Harrisburg, Pa., October 31, 1898.

Mr. Campbell, Factory Inspector, Harrisburg, Pa.:

Dear Sir: As a great deal has already been said and written on the subject of factory inspection, I do not think it will be necessary for me to go into details in relation to the work, and especially that part of it in the Twentieth district, as it would only be a "twice told tale."

Judging from the number of inspections made, the number of orders given and complied with, it is needless to say that good work has been accomplished, and so long as the "factory law" is in existence, I have no doubt the good work will go on, as it has from the earliest days of the Department, to the end.

With kind regards to each and all connected with the Department.

I remain,

Very respectfully,

MARY WAGNER,

Deputy Factory Inspector.

.

APPENDIX.

SYNOPSIS OF INSPECTION LAWS.

(Published here for ready reference.)

MASSACHUSETTS.

Children under 13 years of age can not be employed in any factory, workshop, or mercantile establishment. A sworn statement of the age of all minors under 16 years of age must be obtained and kept by employers. Children under 14 years of age applying for employment, must produce a certificate of school attendance of thirty weeks during the year preceding employment. In cities where manual training is conducted, school attendance is required to the age of 15 years. No child under 14 years of age shall clean machinery operated by mechanical power, and the chief of the department of inspection, with the approval of the Governor, may designate what employments are injurious to the health of children under 14 years of age and prevent their employment thereat. No child under 15 years of age, shall operate or have charge over any elevator, nor any minor under 18 years of age shall operate or have charge over any elevator running over 200 feet per minute. Children under 15 years are prohibited from appearing in any circus or theatrical exhibition.

Limitation of
child labor

Minors under 18 years of age and all women employed in manufacturing establishments are prohibited from working more than fifty-eight hours in one week, and more than ten hours in one day. No minor under 18 years of age can be employed more than sixty hours in one week. Legal day's work for both sexes employed by the State is nine hours, whether employed by the State directly or by contract for the State. No child under 14 years of age can be employed in any establishment before 6 A. M. or later than 7 P. M., nor any minor or woman in any manufacturing establishment between the hours of 10 P. M. and 6 A. M.

Hours of labor for
women and chil-
dren.

Sanitary inspection.

All factories must be kept clean and well ventilated; and in factories employing five or more persons, and in workshops employing five or more children, young persons, or women, inspectors may make such changes, and compel the application and use of any mechanical means, without incurring unreasonable cost, which in their judgment is necessary to secure proper ventilation. Public buildings and schoolrooms come under the factory laws providing for sanitation and ventilation. Sweat-shops are regulated by license laws requiring cleanliness in and about the tenement house so used, and a tag upon all clothing made under the system, guaranteeing that it is free from vermin and all infectious or contagious matter.

Safeguards.

Belting, shafting, gearing and drums in factories must be securely guarded. Wherever manufacturing machinery is propelled by steam, suitable communication must be provided between each room where such machinery is placed and the engine room, in order to control the motive power in case of accident. Machinery other than steam engines must not be cleaned while running if objected to by an inspector. The openings for hoistways, hatchways, well holes, and elevators in all buildings must be protected in such a manner as inspectors may direct and any elevator deemed dangerous or unsafe by an inspector shall be placarded as such, and its use prohibited until made safe.

Protection from fire and other disaster.

Inspectors may order fire escapes, safe stairways inside or outside of buildings, and the altering of doors and windows suitable for speedy egress in all public buildings, and in all factories, workshops, mercantile establishments, hotels, tenements, etc., having at any time more than ten persons, or any floor above the second, and all such floors shall require suitable means for extinguishing fire.

Inspection of steam boilers.

Six special inspectors are appointed to inspect all uninsured steam boilers of a certain capacity and used in connection with stationary engines, or for heating public buildings, and to examine engineers and firemen as to their competency to have charge over such steam plants.

License.

Engineer or fireman operating boiler must have license; license must be renewed at the end of three years. License fee, \$1.

Manufacturers and mercantile establishments must report "forthwith" all accidents resulting in the death of an employe, or which prevents his return to work within four days after the occurrence.

Accidents.

The chief inspector can compel all persons and corporations employing twenty-five or more persons to pay employes their wages weekly, excepting when the railroad commissioners shall exempt any railroad corporation from the provisions of this act, if, in their opinion, any of the employes of said corporations wish less frequent payment.

Weekly pay law.

The system of grading work now or at any time hereafter used by the manufacturers shall in no way effect the wages of a weaver except for imperfections in his own work, and in no case shall the wages of those engaged in weaving be effected by fines or otherwise, unless the imperfections complained of are first exhibited and pointed out by the person or persons whose wages are to be affected, and no fine shall be imposed upon any person for imperfect weaving, unless the provisions of this act are first complied with and the amount of the fines agreed upon by both parties.

Fines.

NEW YORK.

No child under 14 years of age can be employed in any factory or workshop, and all minors between 14 and sixteen years of age are required to produce a health ward certificate as to age, etc., before obtaining employment, and a record of the names, etc., of same is kept in the office. Children between the ages of 14 and 16 years are required to be able to read and write simple sentences in the English language, otherwise they can be employed only during vacation times of the public schools. No minor under 15 years of age shall have charge over or operate an elevator, and no minor under 18 years shall have charge over or operate an elevator running at a speed of more than 200 feet per minute, nor shall he be allowed to clean machinery while in motion, and any person is forbidden to remove guards from machinery unless for immediate repairs.

Limitation of child labor.

No minor under 18 years nor woman under 21 years of age is allowed to work more than ten hours in any one day, unless for the purpose of making a shorter work day on Saturday, and minors shall not work more

Hours of labor.

than sixty hours in one week, and no minor under 18 years of age and no woman under 21 years of age can commence working any day before 6 A. M. nor be employed after 9 A. M.

Sanitary inspection.

In all factories and workshops between the hours of 6 A. M. and 6 P. M. 250 cubic feet of air space is required for each employe, and 400 cubic feet from 6 P. M. to 6 A. M., but inspectors may grant less air space where rooms are lighted at night-time by electricity. All work rooms are required to be kept in a clean condition, and exhaust fans and other means of ventilation may be required in work-rooms in order to carry away dust or other impurities. In all establishments separate closets must be provided for the sexes—with suitable wash and dress rooms for females. Rooms, ceilings, and walls must be whitewashed or painted by the direction of the inspectors. Sweatshops are controlled by license laws requiring cleanliness and thorough disinfection of premises, and restricting the work done in each tenement workshop to the members of the family dwelling therein. A tag is to be placed upon all sweater-made clothing, etc., manufactured in violation of the provisions of the act, or made under unclean or unhealthy conditions. The sanitary regulation of bakeries is provided for by special enactment. Six (6) inspectors are appointed to carry out requirements of the law.

Safeguards.

Elevator openings, hoisting-shafts, and well holes must be enclosed with railing or casing, and provided with properly adjusted trap or automatic doors and gates. Cables, gearing, shafting and other machinery or apparatus must be guarded and kept in safe condition. Hand rails must be provided on all stairways, and stairs screened where females are employed, and when deemed necessary, stairs must be covered with rubber covers.

Protection from fire and other disaster.

Buildings of three or more stories with employes on or above the third story, must be provided with suitable fire escapes, easy of access, and free from draft, from any hoistway, stairs or other floor openings. Doors must open outwardly and be kept unfastened during work hours.

Accidents.

Every case of accident or injury to any employe must be reported with full details within forty-eight hours after its occurrence.

Every corporation, excepting steam surface railway corporations, is required to make weekly payment of wages to employes. Weekly pay law .

Inspection of mines is placed under the factory inspection department of New York. Mines.

NEW JERSEY.

Boys under 12 years of age and girls under 14 years of age are prohibited from working in any manufacturing establishment. Children between the age of 12 and 15 years must produce school certificate of school attendance for twelve weeks during the year immediately preceding date of employment. No minor under the age of 16 years shall be employed at work dangerous to health without certificate from physician, and no minor shall clean machinery in motion or be employed between its traversing parts. Limitation of child labor.

The hours of labor for minors of both sexes is limited to fifty-five hours per week. Hours of labor.

Inspectors have power to regulate heating, lighting and other sanitary conditions. They can prohibit the overcrowding of factories and workshops, and to produce proper ventilation in factories where dust is created they can have suitable mechanical means applied, and in all establishments where women are employed suitable and separate closets for the sexes must be provided, with wash and dress rooms for females. Factories where dusty work is performed and wherein women and children are employed shall be white-washed or painted once in twelve months. Bakeries must be thoroughly ventilated and be provided with proper plumbing connections, and must have no connection with or without the room with any water closet, earth closet, ash pit or other nuisance. Employes must have sleeping quarters separate from bake rooms. Sanitary inspection.

Belting, shafting, gearing, drums, and other machinery of a dangerous character, and all vats, pans, and other structures containing molten metal or hot liquid must be suitably protected. All floor openings for hatchways, hoistways, well holes, and elevators must be provided with automatic or trap-doors and otherwise be guarded with a railing three feet high. Stairs in use by females must be screened, and no female must be allowed to clean machinery in operation or to work between its traversing parts. Safeguards.

Protection from
fires, etc.

Explosives or inflammable matter must not be placed or used in such manner as to obstruct egress or to endanger life in case of fire. Upon all buildings for manufacturing purposes two or three stories in height, where thirty or more persons are employed above the first floor, one or more fire escapes may be ordered by the inspectors, and suitable means for extinguishing fire be provided for each floor.

Accidents.

Accidents resulting in death must be reported within twenty-four hours after, and those which prevent the return to work of the injured person within two weeks must be reported to an inspector within twenty-four hours after the expiration of said two weeks.

OHIO.

Limitation of
child labor.

The age at which children may be employed in manufacturing establishments is 14 years, with the provision that children more than 12 years of age may be employed at non-dangerous employment during the time they are not required by law to attend school. The school law requires that all children under 14 years of age and over 8 years must attend school during the school term. This law is not enforced by factory inspectors, but by truant officers, one or more, in all school districts. Office records must be kept by employers of all minors under 18 years of age, giving name, date, and place of birth, with residence of parents or guardians. No minor under 16 years of age shall work at any employment whereby his life or limb is endangered, or his health is likely to be impaired, or his morals may be depraved.

Hours of labor
for minors.

No minor under the age of 18 years shall be employed in any manufacturing establishment more than ten hours in one day, nor more than sixty hours in one week. Notices containing the law must be posted by manufacturers in a conspicuous place in every room where minors are employed, the chief inspector of factories to furnish such notices.

Sanitary inspection.

Heating, lighting, ventilation, and other sanitary requirements in factories, workshops and mercantile establishments, are under the inspector's supervision, and to secure such he may cut through walls, floors, roofs and ceilings, or make changes in sewerages and plumbing, and require proper closet arrangements, and may demand separate closets for the sexes, with toilet

and dressing rooms for females on the floors on which they work, and seats for females to be used by them when not actively engaged. Special bakeshop and sweatshop laws.

Inspectors must order guards for belting, shafting, gearing, elevators and other machinery; also for vats, pans and other structures filled with molten metal or hot liquid; also efficient safety gates for elevator openings, guarding of hatchways, and hoisting apparatus in floors or outside of buildings; the repair of all elevators and all gearing, and of defective walls, roofs, ceilings, stairways and doors, and all other improvements necessary to secure the safety of employes. Blowers may be required where dust-creating machinery is used.

Safeguards.

Inspectors have power to examine all buildings as to their safety, and to order all necessary alterations to obtain the same; also to provide for stairways and fire escapes and other efficient means of egress, and hand-rails for all stairways, and may require in all halls and other buildings for public assemblage means of extinguishing fire on all floors above the first, and that all doors in such buildings shall open outward.

Protection from fires, etc.

Employers must report all accidents upon blanks furnished by inspectors; those resulting in death within seven days after, and those in bodily injury, necessitating six days' consecutive loss of time, within thirty days after.

Accidents.

Stated wages, beforehand agreed upon between employer and employe, must be paid to all minors, and the retention of such by fines or upon any other pretext is absolutely prohibited. No change of wages must occur without a written notice being given to each minor affected twenty-four hours before such change shall take place.

Fines.

ILLINOIS.

Children under 14 years of age can not be employed in any factory or workshop, and minors must produce sworn statements as to age. Office register or minors must be kept by employers and a record of names and ages of minors posted in rooms where they are employed. Physician's certificate as to the physical ability of any minor to perform certain labor may be demanded by inspectors.

Limitation of child labor.

Sanitary inspection.

Inspectors have access to every place where articles of clothing are manufactured for sale; with power to condemn and order destroyed garments found infectious or infested with vermin, and to prohibit the employment in any dwelling rooms of any person not a member of the family living therein.

MICHIGAN.**Limitation of child labor.**

Children under 14 years of age can not be employed in any factory or workshop. Sworn statement as to the age of minors under 16 years must be furnished to employers, who must keep office register of such and post a record thereof on the walls of workrooms. Female minors under 21 and male minors under 18 years of age must not be allowed to clean machinery while in motion.

Hours of labor.

Males under 18 years and females under 21 years of age, can not work more than ten hours in one day, unless to make a shorter workday on Saturday, and not more than sixty hours in one week.

Sanitary inspection.

Means must be provided to carry dust from all dust-creating machinery; separate closets must be provided for each sex, and wash and dress rooms for all females, and such closets and dress rooms must be kept in clean condition.

Safeguards.

Elevators, hoisting shafts, or well holes, must be secured and equipped with trap or automatic doors, and all gearing, shafting and other apparatus kept in safe condition. Hand rails must be provided on stairways, and stairs screened, and when necessary, stair steps must be provided with rubber covers.

Protection from fires, etc.

Factory buildings of three or more stories must be provided with fire escapes, easy of access and free from draft of hoistway or stairway. Doors must be properly hung and open outwardly, and not fastened during working hours.*

CONNECTICUT.**Child labor.**

No person under the age of 16 years can have the care, custody, operation, or management of any elevator.

Sanitary inspection.

Factory buildings must be kept clean and sufficiently ventilated. The inspector may order mechanical ap-

NOTE.—All places where goods, wares or products are manufactured or repaired, cleaned or stored in cities, and all such places outside of cities employing five or more persons, come within the provisions of the factory law.

pliances to carry dust generated by machinery out of workrooms. Suitable water closets must be provided in shops and factories employing five or more persons, and seats in all establishments for female employees.

Belting, shafting, gearing, drums and other machinery must be guarded when deemed necessary by the inspector. Machinery, excepting steam engines, must not be cleaned while in motion. Elevator and floor openings, generally, must be guarded with safety gates, hatch covers, and other devices, as the inspector shall direct, and elevator cars must be furnished with proper safety attachments. Safeguards.

Every story above the first of every schoolhouse, orphan asylum, insane asylum, reformatory, opera house, hall, boarding house with twelve inmates, and tenement house with five families, must be provided with more than one way of egress, inside or outside, and every such building, and in addition thereto, every factory and workshop employing twenty or more persons above first floor, more than two stories in height, shall be provided with one or more fire escapes. Protection from fire.

RHODE ISLAND.

No child under 12 years of age can be employed in any manufacturing or mercantile establishment. Employers must keep office register of all minors under 16 years of age. Minors under 16 are not allowed to clean machinery while in motion. Limitation of child labor.

Hours of labor for women and minors are limited by law to sixty hours per week, but this is not included in factory act. Hours of labor.

Separate closets for sexes are required, and wash and dressing rooms for females; to be located to meet the demands of health and propriety. Sanitary inspection.

Belting, shafting, gearing, drums, and other dangerous machinery, and all vats, pans, and other structures filled with molten metal or hot liquid, must be properly and securely guarded, and all hoisting shafts, and well holes be properly secured, and elevators be provided with traps, automatic doors, or railings. Safeguards.

Inspectors are empowered to provide and direct improvements in means of egress in case of fire. Protection from fire.

Fatal accidents must be reported within forty-eight hours, and all serious accidents within three weeks from time of occurrence.* Accidents.

*NOTE.—The factory act applies to all establishments where five or more women or minors are employed.

ONTARIO.

Limitation of
child labor.

No child under 14 years of age can be employed in any factory except in canning and dessicating fruit and vegetables.

Hours of labor.

No child under 14 years, and no girl or woman can be employed for more than ten hours in one day, or sixty hours in one week, except when employed in factories for canning and dessicating fruit and vegetables. In these, females under 18 years may be employed for as many as thirty-six nights in twelve months until 9 P. M.; and women over 18 years may be required to labor "until the work is finished" twenty nights in twelve months.

Sanitary inspec-
tion.

Every factory must be kept clean and not overcrowded, and must be ventilated so as to render harmless, as far as practicable, all unwholesome effluvia, and to take away dust and other injurious impurities generated by manufacturing machinery. Separate closets must be provided for the sexes, each set to have separate approaches, and to be kept clean and well ventilated at all times. Special act governing sanitation, etc., in bakeshops.

Safeguards.

Belting, shafting, gearing, fly-wheels, drums, and other moving parts of machinery, vats, pans, caldrons, reservoirs, wheel-races, flumes, water channels, doors, openings in floors or walls, bridges, and all dangerous structures must be, as far as practicable, securely guarded. Hoistways, hatchways, elevators and well holes, must be protected by such automatic appliances as the inspector may desire, and all elevator cabs and cars, must be provided, to the satisfaction of the inspector, with suitable safety attachments. No machinery, other than steam engines, must be cleaned while in motion, if inspector so orders, and no woman must be allowed to clean mill gearing while in motion nor to work between the traversing parts of machinery.

Protection from
fire, etc.

Factories, three or more stories high, must be provided with fire escapes, unless supplied with sufficient tower stairways protected with iron doors. All inside and outside doors must open outwardly, and all doors entering stairway towers, or leading to fire escapes, must be kept unlocked and unbolted during working hours. In every factory there must be provided such means for extinguishing fire as the inspector may direct.

Accidents resulting in bodily injury to an employe must be reported by the employer within six days after, and if accident shall prove fatal, within twenty-four hours from time of its occurrence.*

Accidents.

QUEBEC.

No boy under 12 years, and no girl under 14 years of age can be employed in any factory, workshop, work yard, or mill of any kind. In establishments classified as "dangerous, unwholesome, or inconvenient," the age of employes shall not be under 16 years for boys, and 18 years for girls. Age certificate may be required of parent or guardian. Children are discharged if pronounced physically unfit for work by sanitary or other physician. Employer must keep register containing names and ages of boys, girls and women employed, the period of each day and week they are employed, and the hour at which they begin and finish work.

Limitation of child labor.

No boy under 18 years of age, and no girl or woman shall be employed more than ten hours in any one day and sixty hours in any one week. The day shall not commence before six o'clock in the morning, nor end after nine o'clock at night. In certain exigencies the inspector may extend the working day to twelve hours for a period not exceeding six weeks.

Hours of labor for women and children.

Establishments must be kept clean, well lighted, well ventilated; must be provided with apparatus for expelling dust and gases, and employers must furnish inspector with certificate from health officers that establishment fulfils sanitary conditions imposed by factory act and by regulations of Board of Health of Province.

Sanitary inspection.

Platforms and elevated passageways must be provided with guards, belting, cables, and shafts must be closed in to a height of six feet; pits, cells, wells, traps and vats, must be covered or fenced in; warning placards must be posted near tanks of corrosive or burning liquids. Hoist, elevator, and lift shafts must be closed in with self-closing doors, and shall be examined every six months. Machinery of all kinds must be guarded, and may not be oiled, cleaned, or repaired while in motion.

Safeguards.

*NOTE.—The word "factory" includes manufacturing establishments and workshops where six or more persons are employed.

Protection from
fire, etc.

Owner, tenant, and occupant of property on which establishment is built are jointly and severally responsible for construction and repair of fire escapes. Doors of egress must open outward, must be left free during working hours, must close by means of weights or spring only. In buildings three stories or more high, inspectors may require additional exits and outside iron fire escape stairs, these exits to consist of doors or windows opening out upon balcony or gallery. Receptacles for oil and petroleum must be kept in special closed room. Gas works must be separated from workshop and in charge of men over 18 years of age. Places in which explosive or inflammable gases are produced or kept, must be lighted only from the outside and visited only with safety lamps.

Boilers and
motors.

In new establishments, steam boilers and motors must, if possible, be placed outside of main building. In older establishments may be closed in on side where work is done, and accessible only to the workman in charge. Every boiler must be provided with not less than two safety-valves, a steam gauge and two independent water gauges.

Accidents.

Employer must send to inspector a written notice of any accident whereby a workman has been killed or so seriously injured as to prevent his continuing at work. The notice must be sent within forty-eight hours of time of accident, and must state where the person injured or killed has place of residence, or the place to which he has been removed. The inspectors may be present at coroner's inquests and at inquiries by fire marshals. The inspectors may hold such inquiries as they deem proper, may examine any person employed, summon witnesses and administer the oath to them.

Public buildings.

Public buildings, as well as industrial establishments, are inspected under these laws.

MISSOURI.

Limitation of
child labor.

No minor shall be required to clean machinery or to work between its transversing parts while it is in motion.

Sanitary inspection.

Inspectors have power to prevent overcrowding in all establishments where labor is employed and can regulate heating, lighting, ventilating and other sanitary arrangements, and may order suitable mechani-

cal means for carrying away dust and other impurities generated by manufacturing. And where females are employed at unclean work, wash and dress rooms must be provided, and stairs used by females must be properly screened, seats must be provided and conveniently located so that females can use them when not required to be on their feet, and where both sexes are employed, separate and distinct water closets must be provided for each sex.

Belting, shafting, gearing and drums, in all establishments, must be safely and securely guarded, and all vats, pans, ladles or structures filled with molten metal or hot liquid, or any furnace, must be surrounded with safe-guards, and all platforms, passage-ways, and other arrangements about railroad yards must be made comparatively safe. The openings of hatchways, elevators and well holes, must be protected by trap-doors, self-closing hatches or safety catches, or railing three feet high. Where guards are not practicable, notice of danger must be posted. Safeguards.

Establishments two or more stories high, in which twenty or more persons are employed above first floor, must be provided with fire-escapes, and in addition for every twenty persons employed above the second floor, one rope or other portable fire escape; and each floor must be supplied with means for extinguishing fire. All doors must open outwardly, and must not be locked or bolted during labor hours. In any building or any part thereof supposed to be unsafe, or means of egress insufficient, the inspector may order necessary changes. Protection against fire.

Any accident resulting in death, or which prevents an employe's return to work within two weeks, must be reported.* Accidents.

MINNESOTA.

The law forbids any parent or guardian to let or hire any minor under 21 years of age, nor must any person wilfully permit any child under 14 years to work at any employment injurious to health, dangerous to life and limb, or likely to deprave its morals. Limitation of child labor.

Children under 16 years of age must not be permitted, nor must any woman be compelled, to work Hours of labor.

* NOTE.—All factories employing five or more persons, and all workshops where children, young persons or women are employed, come under the inspector's authority so far as sanitary provisions are required, while the factory or inspection laws as a whole apply to establishments in general employing ten or more persons.

more than ten hours in one day, or to work earlier than 7 A. M. nor later than 6 P. M. of any one day.

Sanitary inspection.

All work rooms must be well lighted, heated and ventilated and kept in clean condition. Exhaust fans must be adjusted for carrying dust from emery wheels and grindstones. Separate closets for the sexes must be provided, and wash and dress rooms where females are employed, and seats for their use in mercantile establishments. Bakeries, including hotel and restaurant kitchens, must have no connection, within or without the room, with any water closet, earth closet, ash pit or other nuisance, and employes or others are not permitted to live or sleep in bakeries.

Safeguards.

The law is specific in authority and includes almost the whole range of machinery employed in industrial operations. It provides that saws, planers, wood-shapers, jointers, sand-papering machines, ironing mangles, set-screws, drums, belts, shafting, cables, fly-wheels, dynamos and other electrical apparatus and appliance, vats, pans and such other structures, and all dangerous places in and about factories and other works must be guarded. Loose pulleys must be adjusted, where practicable, and shift-belts provided with shifters. All elevators and other floor-openings must be fenced or otherwise protected, and all elevators supplied with safety devices.

Protection against fire.

In all factories and other buildings in which people are employed more than one means of egress must be provided. Doors leading therefrom must open outward, and be kept unfastened and unobstructed during working hours. Hand-rails on stairways must be provided, and stairs properly screened when used by females. One or more fire escapes shall be placed upon all factory and other such buildings if three or more stories in height. Plan of escape is defined by enactment.

Inspection of steam boilers.

Steam boilers are inspected by a separate State department, constituted of five inspectors.

Accidents.

Accidents to employes, requiring the aid of a surgeon, or resulting in death, must be reported by employer within ten days after occurring.

MAINE.

No child under 12 years of age shall be employed in any manufacturing or mechanical establishment, nor any child under 15 years of age except during vacation of the public schools, unless such child has attended school sixteen weeks of each year preceding its 16th year. To secure employment every child must procure a certificate from the school authorities to the effect that the school laws are complied with, and it shall contain the age and birthplace of such child, and be kept on file for reference by the employer.

Limitation of
child labor.

No female under 18 years of age and no male under 16 years of age shall work more than ten hours per day, or sixty hours per week. Male minors over 16 years of age, with consent of parents, may contract to work longer hours, otherwise ten hours is a legal day's work for such minors. The same rule applies to women over 18 years of age, with provision that the limit of overtime for women shall not exceed six hours in any one week or sixty hours in one year. Employers must post in every room where minors and women are employed, a notice in large type regulating the hours of labor for such persons.

Hours of labor.

The inspector must enforce a law requiring the proper swinging of doors in factories and workshops.

Safeguards.

Whatever is discovered by the inspector which endangers the life or health of the employes in factory, workshop, mine, or quarry must be reported to the local board of health, who must investigate.

Sanitary inspection.

Every firm and corporation, including municipal corporations, and excluding railroad corporations, employing more than ten persons, must pay fortnightly all wages earned by employes.

Payment of
wages.

NEW LABOR LAWS OF PENNSYLVANIA.

AN ACT to regulate the manufacture of flour and meal food products.

Section 1. Be it enacted, etc., That no employe shall be required, permitted, or suffered to work in a biscuit, bread, or cake bakery, confectionery establishment more than six (6) days in any one week, said week to commence on Sunday not before six o'clock post meridian, and to terminate at the corresponding time on Saturday of the same week. No person under the age of eighteen (18) years shall be employed in any bake house between the hours of nine (9) o'clock at night and five (5) o'clock in the morning. Excepted from this rule shall be the time on Sunday for setting the sponges for the night's work following.

Section 2. All buildings or rooms occupied as a biscuit, bread, pretzel, pie, or cake bakery, or macaroni establishment, shall be drained and plumbed in the manner directed by the rules and regulations governing the house drainage and plumbing as prescribed by law, and all rooms used for the purpose aforesaid shall be ventilated by means of air-shafts, windows, or ventilating pipes, so as to insure a free circulation of fresh air. No cellar or basement, not now used for a bakery, shall hereafter be occupied and used as a bakery, unless the proprietor shall have previously complied with the sanitary provisions of this act.

Section 3. Every room used for the manufacture of flour or meal food products shall have an impervious floor, constructed of cement or of tiles laid in cement, or of wood which all the crevices shall be filled in with putty, and the whole surface treated with oil varnish. The inside walls and ceilings shall be plastered and either be painted with oil paint, three (3) coats, or be limewashed, or the side walls plastered and wainscoted to the height of six (6) feet from the floor, and painted or oiled; when painted, shall be renewed at least once in every five (5) years, and shall be washed with hot water and soap at least once in every three (3) months; when limewashed, the limewashing shall be renewed at least once in every three (3) months. The furniture and utensils in such room shall be so arranged that the furniture and floor may at all times be kept in a thoroughly sanitary and clean condition. No domestic or pet animal shall be allowed in a room used as a biscuit, bread, pie, or cake bakery, or in any room in such bakery where flour or meal products are stored.

Section 4. The manufactured flour and meal food products shall be kept in perfectly dry and airy rooms, so arranged that the floors, shelves and all other places for storing the same can be easily and perfectly cleaned.

Section 5. Every such bakery shall be provided with a proper wash-room and water closet or closets, apart from the bakeroom or rooms where the manufacture of such food products is conducted, and no water closet, earth closet, privy, or ash pit shall be within or communicate directly with the bakeroom of any bakery, hotel, or public restaurant.

Section 6. Every sleeping room for persons employed in every bakery shall be kept separate from the room or rooms where flour or meal products are manufactured or stored, and shall be provided with one or more external glazed windows, each of which shall be at least nine (9) superficial feet in area, of which at least four and one-half ($4\frac{1}{2}$) superficial feet shall be made to open for ventilation; and such sleeping places, when they are on the same floor as the bakery, shall be inspected in order to maintain them in a condition of cleanliness.

Section 7. No employer shall knowingly require, permit or suffer any person to work in his bakeshop who is afflicted with consumption of the lungs, or with scrofulous diseases, or with any venereal diseases, or with any communicable skin affection, and every employer is hereby required to maintain himself and his employes in a clean condition while engaged in the manufacture, handling, or sale of such food products, and it is hereby made the duty of the Board of Health to enforce the provisions of this section.

Section 8. Any person who violates any of the provisions of this act, or refuses to comply with any requirements as provided herein of the Factory Inspector or his deputy, who are hereby charged with the enforcement of this act, excepting section seven, shall be guilty of a misdemeanor, and on conviction shall be punished by a fine not less than twenty (20), nor more than fifty (50) dollars for a first offense; and not less than fifty (50), nor more than one hundred (100) dollars for a second offense, or imprisonment for not more than ten (10) days; and for a third offense, by a fine of not less than two hundred and fifty (250) dollars and more than thirty (30) days' imprisonment.

Section 9. The Factory Inspector is authorized to issue a certificate of satisfactory inspection to a person conducting a bakery where such bakery is conducted in compliance with all the provisions of this act.

Section 10. The owner, agent, or lessee of any property affected by the provisions of sections two, three and five of this act, shall, within thirty (30) days after the service of a notice requiring any alterations to be made in or upon such premises, comply therewith, and such

notices shall be in writing and may be served upon such owner, agent or lessee, either personally or by mail, and notice to the last-known address of such owner, agent, or lessee shall be deemed sufficient for the purpose of this act.

Section 11. A copy of this act shall be conspicuously posted and kept posted in each workroom of every bread, cake or pie bakery, or confectionery establishment in this State.

Section 12. This act shall take effect thirty (30) days after the same shall have been approved and signed by the Governor of this Commonwealth.

Approved—The 27th day of May, 1897.

AN ACT to regulate the employment and provide for the health and safety of men, women and children in manufacturing establishments, mercantile industries, laundries, renovating works or printing offices, and to provide for the appointment of inspectors, office clerks and others to enforce the same.

Section 1. Be it enacted, etc., That no minor, male or female, or adult woman shall be employed at labor or detained in any manufacturing establishment, mercantile industry, laundry, workshop, renovating works, or printing office, for a longer period than twelve hours in any day, nor for a longer period than sixty hours in any week.

Section 2. No child under thirteen years of age shall be employed in any factory, manufacturing or mercantile industry, laundry, workshop, renovating works or printing office within this State. It shall be the duty of every person so employing children to keep a register in which shall be recorded the name, birthplace, age and place of residence, name of parent or guardian, and date when employment ceases, of every person so employed by him under the age of sixteen years. And it shall be unlawful for any factory, manufacturing or mercantile industry, laundry, workshop, renovating works or printing office, to hire or employ any child under the age of sixteen years, without there is first provided and placed on file an affidavit made by the parent or guardian, stating the age, date and place of birth of said child. If said child have no parent or guardian, then such affidavit shall be made by the child, which affidavit shall be kept on file by the employer and shall be returned to the child when employment ceases, and in no case shall there be a charge to exceed twenty-five cents for administering the oath for the issuing of the above certificates. And after the first day of January, one thousand eight hundred and ninety-eight, it shall be unlawful for any manufacturing establishment, mercantile industry, renovating works, printing office, mechanical or other industrial establishment, to employ any minor under the age of sixteen years who can not read and write in the English language, unless he presents a certificate of having attended during the pre-

ceding year, an evening or day school for a period of sixteen weeks. Said certificate shall be signed by the teacher or teachers of the school or schools which said minor attended, and said register, affidavit and certificate shall be produced for inspection on demand by the Inspector or any of the deputies appointed under this act.

Section 3. Every person, firm, or corporation employing men, women or children, or either, in any factory, manufacturing or mercantile industry, laundry, workshop, renovating works, or printing office, shall post and keep posted in a conspicuous place in every room where such help is employed, a printed notice, stating the number of hours per day for each day of the week required of such persons; and in every room where children under sixteen years of age are employed a list of their names with their age.

Section 4. Every person, firm, association, individual, partnership, or corporation employing girls or adult women in any manufacturing, mechanical, or mercantile industry, laundry, workshop, renovating works, or printing office, in this State, shall provide suitable seats for the use of the girls and women so employed, and shall permit the use of such by them when they are not necessarily engaged in the active duties for which they are employed.

Section 5. It shall be the duty of the owner, agent or lessee of any such factory, manufacturing or mercantile industry, laundry, workshop, renovating works, or printing office, where hoisting shafts or wellholes are used, to cause the same to be properly and substantially enclosed or secured if in the opinion of the Inspector it is necessary to protect the life or limb of those employed in such establishments. It shall be the duty of the owner, agent, or lessee to provide or cause to be provided, such proper trap or automatic doors, so fastened in, or all elevator ways, as to form a substantial surface when closed, and so constructed as to open and close by action of the elevator in its passage, either ascending or descending.

Section 6. It shall also be the duty of the owner of such factory, manufacturing or mercantile industry, laundry, workshop, renovating works, or printing office, or his agent, superintendent, or other person in charge of the same, to furnish and supply, or cause to be furnished or supplied, in the discretion of the Inspector where dangerous machinery is in use, automatic shifters or other mechanical contrivances for the purpose of throwing on or off belts or pulleys. And no minor under sixteen years of age shall be allowed to clean machinery while in motion. All gearing and belting shall be provided with proper safeguards.

Section 7. It shall be the duty of the owner or superintendent to report in writing to the Factory Inspector all accidents or serious injury done to any person employed in such factory, within twenty-four hours after the accident occurs, stating as fully as possible the cause of such injury.

Section 8. A suitable and proper wash and dressing room and water closets shall be provided for males and females where employed, and the water closet, wash and dressing rooms used by females shall not adjoin those used by males, but shall be built entirely away from them, and shall be properly screened and ventilated, and at all times kept in a clean condition.

Section 9. Not less than forty-five minutes shall be allowed for the noonday meal in any manufacturing establishment in this State. The Factory Inspector, his assistant, or any of his deputies, shall have power to issue permits in special cases, allowing a shorter meal time at noon, and such permit must be conspicuously posted in the main entrance of the establishment, and such permit may be revoked at any time the Inspector deems necessary, and shall only be given where good cause can be shown.

Section 10. That if the Factory Inspector, or any of his deputies, finds that the heating, lighting, ventilation, or sanitary arrangements of any factory, manufacturing or mercantile industry, laundry, workshop, renovating works or printing office, is such as to be injurious to the health of persons employed therein, or that the means of egress, in case of fire or other disaster, is not sufficient, or in accordance with all the requirements of law, or that the belting, shafting, gearing, elevators, drums and machinery in any factory, manufacturing or mercantile industry, laundry, workshop, renovating works, or printing office, are located so as to be dangerous to employees and not sufficiently guarded, or that the vats, pans, or structures filled with molten metal or hot liquid are not surrounded with proper safeguards for preventing accident or injury to those employed at or near them, he shall notify the proprietor of such factory, manufacturing or mercantile industry, laundry, workshop, renovating works, or printing office, to make the alterations or additions necessary within sixty days, and any factory, manufacturing or mercantile industry, laundry, workshop, renovating works or printing office, requiring exits or other safeguards provided for in fire escape law, the same shall be erected and located by order of Factory Inspector regardless of the exemption granted by any board of county commissioners, fire marshal or other authorities, and if such alterations and additions are not made within sixty days from the date of such notice, or within such time as said alterations can be made with proper diligence upon the part of such proprietors, said proprietors or agents shall be deemed guilty of violating the provisions of this act.

Section 11. It shall be the duty of the owner or owners of boilers used for the generating of steam to be applied to machinery in all industrial institutions subject to factory inspection, to furnish from time to time, as required by the Factory Department, reports or other evidence from competent authority as to the condition of the boilers

used for the generating of steam to the State Factory Inspector. He, or his deputies, or other agents shall have the right, from time to time, to enter upon the premises where such boiler or boilers are kept for the purpose of inspecting the same and determining their safety, and if any such boiler or boilers shall be found to be in a dangerous condition and liable to explode, it shall be the duty of the Factory Inspector, or one of his deputies, to notify the owner or owners thereof, his or their agent or engineer in charge, of such dangerous condition, and when so notified by the State Factory Inspector, his deputy or other agent, it shall be the duty of the owner or owners thereof to immediately cease the use of said boiler or boilers until placed in safe condition.

Section 12. The Factory Inspector, in order to more effectually carry out the provisions of this law, is hereby authorized to appoint a chief clerk for the department at a salary of fourteen hundred dollars per year, an assistant clerk at one thousand dollars per year, and a messenger at six hundred dollars per year.

Section 13. A printed copy of this act shall be furnished by the Inspector of each workroom of every factory, manufacturing or mercantile industry where persons are employed who are affected by the provisions of this act, and it shall be the duty of the employer of the people employed therein to post and keep posted said printed copy of the law in each room.

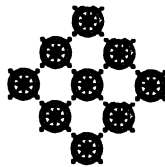

Section 14. Any person who violates any of the provisions of this act or who suffers or permits any child or female to be employed in violation of its provisions, shall be deemed guilty of a misdemeanor, and on conviction, shall be punished by a fine of not more than five hundred dollars.

Section 15. All acts or parts of acts inconsistent with the provisions of this act are hereby repealed.

Approved—The 29th day of April, A. D., 1897.

JAMES CAMPBELL,
Factory Inspector.

Office at Harrisburg, Pa.
